who promoted the reorganization of housing and neighborhoods around the needs of employed women In reevaluating these early feminist plans for the environmental and economic transformation of American society and in recording the vigorous and many sided arguments that evolved around the issues they raised Hayden brings to light basic economic and spacial contradictions which outdated forms of housing and inadequate community services still create for American women and for their families      **Catalog of Sears, Roebuck and Company** Sears, Roebuck and Company,1979      **American Bee Journal** ,1926 Includes summarized reports of many bee keeper associations
