

# Welcome to CareOregon

## CareOregon vision

Healthy communities for all individuals regardless of income or social circumstances.

## CareOregon mission

Building individual well-being and community health through partnerships, shared learning and innovation.

## CareOregon standards of service

CareOregon's goal is to ensure the greatest possible health benefit to our members through the effective use of Medicaid and Medicare funding.

## We are equally committed to:

- Providing medically effective health care within state and federal guidelines
- Promoting the health of every member
- Providing exceptional and proactive service to our members and providers
- Treating all contacts with dignity, respect and understanding
- Working in partnership with our members, their extended health support groups and the providers that help make up their medical homes

CareOregon understands that in order to accomplish these goals we must advocate for and on behalf of our members.

## Philosophy

From a health services perspective, CareOregon promotes care that is based upon the National Institute of Medicine's six quality standards:

- Safe
- Effective
- Efficient
- Patient-centered (culturally appropriate and linguistically sensitive)
- Timely
- Equitable

Specifically, this means using appropriate clinical judgment in the application of approved criteria and guidelines to evaluate the member's circumstances and medical needs rather than adherence to literal standards. This is especially critical for members with complex medical or social issues, and for those who need additional support in understanding health care issues because of language or literacy barriers. In these cases, appropriately trained staff gather more information to help members make informed decisions that meet their needs within the health care benefit.
