

The Great Pacific Garbage Patch

The Great Pacific Garbage Patch is an area in the ocean which contains one of the world's largest floating collections of plastic waste. Sometimes known as a 'trash island', it is one of several similar collections of plastic waste in the world and is not.

Size and location

The Great Pacific Garbage Patch is located in the North Pacific Ocean. It is halfway between California and the island of Hawaii.

According to some reports, it is thought to be around 1.5 million square kilometres in size. This is as big as most of the areas under the sea of the world.

The Great Pacific Garbage Patch is a collection of plastic waste that is not visible from the surface of the sea.

What is in the Great Pacific Garbage Patch?

It is believed to contain that the garbage patch would be made up of large plastic items gathered together in a 'trash island'. In fact, a large percentage of the trash is made up of 'microplastics' - tiny particles that are left in the water after they have broken down. The 'trash island' is therefore better described as more like a swirling 'cloud' of tiny microplastics.

Most of these microplastics are the tiny pieces of larger items that have broken down over time. This can be caused by the sun, the waves and even by marine life.

There do not just remain floating in the surface. Different plastics can float just below the surface or sink lower down into the water. Larger objects include fishing nets and bags that have been lost or abandoned at sea.

How is it formed?

garbage patches' and are being lost at sea due to the currents and waves. Plastic waste that reaches the ocean is carried out by the tide and by the weather. The weathering of plastic into tiny pieces, which are a lot smaller than the original items, is the process that the tide and the waves do. The weathering of plastic into tiny pieces, which are a lot smaller than the original items, is the process that the tide and the waves do.

Size and location

Plastic is cheap and extremely easy to make. Because it is extremely long-lasting, it is not biodegradable. This means it can remain in the environment for hundreds of years. In many cases, if plastic is not recycled, it will be around forever.

Microplastics present a danger to fish, birds and other sea life because they can mistake them for food. The tiny microplastics can also get into the food chain and cause harm to marine life.

Some larger plastics can also cause injury to wildlife. The risk of injury to the ocean can be reduced by using more plastic with care. For example, we can reduce the amount of plastic we use and recycle it.

Of course, the best solution of all is to try to reduce the amount of plastic entering the ocean in the first place. If we can do this, we can reduce the amount of plastic that is lost to the ocean and the amount of plastic that is lost to the ocean.

English Language Arts, Grade 8 Module 3 PCG Education, 2015-12-14 Paths to College and Career Jossey Bass and PCG Education are proud to bring the Paths to College and Career English Language Arts ELA curriculum and professional development resources for grades 6-12 to educators across the country. Originally developed for EngageNY and written with a focus on the shifts in instructional practice and student experiences, the standards require Paths to College and Career includes daily lesson plans, guiding questions, recommended texts, scaffolding strategies, and other classroom resources. Paths to College and Career is a concrete and practical ELA instructional program that engages students with compelling and complex texts. At each grade level, Paths to College and Career delivers a yearlong curriculum that develops all students' ability to read closely and engage in text-based discussions, build evidence-based claims and arguments, conduct research, and write from sources, and expand their academic vocabulary. Paths to College and Career's instructional resources address the needs of all learners, including students with disabilities, English language learners, and gifted and talented students. This enhanced curriculum provides teachers with freshly designed Teacher Guides that make the curriculum more accessible and flexible, a Teacher Resource Book for each module that includes all of the materials educators need to manage instruction, and Student Journals that give students learning tools for each module and a single place to organize and document their learning. As the creators of the Paths ELA curriculum for grades 6-12, PCG Education provides a professional learning program that ensures the success of the curriculum. The program includes Nationally recognized professional development from an organization that has been immersed in the new standards since their inception. Blended learning experiences for teachers and leaders that enrich and extend the learning. A train-the-trainer program that builds capacity and provides resources and individual support for embedded leaders and coaches. Paths offers schools and districts a unique approach to ensuring college and career readiness for all students, providing state-of-the-art curriculum and state-of-the-art implementation.

The American Journey Joyce Oldham Appleby, Alan Brinkley, James M. McPherson, 2003 **Use History Like a Tool** Steven Levi, 2003 If you really want to use history like a tool in your day-to-day survival, you must understand the underlying principles of history and how to use those principles. Doing this requires that you see history differently, as something other than names and dates. You need to see history as motion. In other words, people and countries, armies, and economies move through time toward goals. These goals can be political, philosophical, religious, economic, or anything else. In this book, we'll consider the various laws of historical motion. In *USE HISTORY LIKE A TOOL*, Levi goes on to examine the history of Western Civilization in a non-chronological way. His organizing theme is a series of rules that he believes control the movement of history, including: Motion Looks for Niches; Choices Define Circumstances; Not Vice Versa; Prohibition Never Works; All Systems Ossify; Economies Are Built from the Bottom Up. Most people think what's in it for me. Entertainment is important. Showing how these rules apply to people and history, Levi combines his versions of well-known
