- LO 1-6** Obtain an overview of how to use financial statement information to forecast the future business activities of a firm and to value a firm.
- LO 1-7** Consider the role of financial statement analysis in an efficient capital market, and review empirical evidence on the association between changes in earnings and changes in stock prices.
- LO 1-8** Review sources of financial information available for publicly held firms.

Chapter Overview

This book has three principal objectives, each designed to help you gain important knowledge and skills necessary for financial statement analysis and valuation:

1. To demonstrate how you can link the economics of an industry, a firm's strategy, and its financial statements, gaining important insights about the firm's profitability and its risk. Chapters 1-5 discuss the principal financial statements and tools for analyzing profitability and risk.
2. To enhance your understanding of the accounting principles and methods under U.S. Generally Accepted Accounting Principles (GAAP) and International Financial Reporting Standards (IFRS) that firms use to measure and report their financing, investing, and operating activities in a set of financial statements and, if necessary, the adjustments you may make to reported amounts to increase their relevance and reliability. Chapters 6-9 explore accounting principles in depth.
