An Analysis of John Lewis Gaddis's We Now Know Scott Gilfillan, Jason Xidias, 2017-07-05 John Lewis Gaddis had written four previous books on the Cold War by the time he published *We Now Know* so the main thrust of his new work was not so much to present new arguments as to re-examine old ones in the light of new evidence that began emerging from behind the Iron Curtain after 1990 In this respect *We Now Know* can be seen as an important exercise in evaluation Gaddis not only undertook to reassess his own positions arguing that this was the only intellectually honest course open to him in such changing circumstances but also took the opportunity to address criticisms of his early works not least by post revisionist historians The straightforwardness and flexibility that Gaddis exhibited in consequence enhanced his book's authority He also deployed interpretative skills to help him revise his methodology and reinterpret key historical arguments integrating new comparative histories of the Cold War era into his broader argument

Sample Book Insights

- 1 The war was won by a coalition of countries that were already at war with one another ideologically and geopolitically The victors would have to cease being who they were or give up much of what they had hoped to attain by fighting the war
- 2 The American and Russian armies which met in 1945 on the banks of the Elbe River had similarities in their birth in revolution and their global ideologies but they differed in their distrust of concentrated authority
- 3 The American and British governments were able to choose where when and in what circumstances they would fight which greatly minimized the costs and risks of fighting The Soviet Union on the other hand had no such advantages It had only one war and it was the most terrible one in all of history
- 4 The Soviet Union had one other advantage as well which was that it alone among the victors emerged from the war with tested leadership
