sustainability including the national development of the 2030 Agenda and the Principle 10 Escaz Agreement These 3 instruments among others recognize the importance of an effective engagement with Civil Society for the advancement and implementation of the environmental sustainability agreements and goals With this regional diagnostic study the IDB Group enhances its knowledge in the subject matter with the technical experience regarding citizen engagement It sheds light on the perspective of best practices employed by governments for the advancement of their environmental commitments with the contributions of Civil Society in Argentina Chile Colombia Costa Rica Jamaica Mexico and Peru The study had a methodological framework that identifies systematizes and analyzes best citizen engagement practices for the advancement of governments climate and sustainability agendas It is structured in 3 chapters i a conceptual framework which guides the reader about the methodology including relevant definitions for the analysis of best engagement practices ii a section containing best engagement practices in the climate and environmental sustainability agendas for each of the 7 countries of the study with potential of being replicated in other contexts iii a comparative analysis with recommendations and road maps based in the findings of the diagnostic section

The Regulation and Policy of Latin American Energy Transitions

Lucas Noura Guimarães,2020-02-19 The Regulation and Policy of Latin American Energy Transitions examines the ongoing revolution within the energy landscape of Latin America This book includes real world examples from across the continent to demonstrate the current landscape of energy policy in Latin America It focuses on distributed energy resources including distributed generation energy efficiency and microgrids but also addresses the role of less common energy sources such as geothermal and biogas as well as discusses the changing role of energy actors where consumers become prosumers or prosumagers and utilities become service providers The legal frameworks that are still hampering the transformation of the energy landscape are explored together with an analysis of the economic planning related and social aspects of energy transitions which can help address the issue of how inequalities are affecting and being affected by energy transitions The book is suitable for policy makers lawyers economists and social science professionals working with energy policy as well as researchers and industry professionals in the field It is an ideal source for anyone involved in energy policy and regulation across Latin America

Putting Water Security to Work Chad Staddon,Christopher A. Scott,2021-09-09 Over the last decade water security has replaced sustainability as the key optic for thinking about how we manage water This reframing has offered benefits including clear recognition of the link between humans the environment and the right to water and also posed challenges the tendency in some quarters to interpret security solely in terms of geopolitical or economic securitisation In this collection the authors offer a radical repositioning of these debates updated to reflect the concerns of our post pandemic world The chapters in this volume examine several different themes including how water security articulates with locality and culture how it operates across spatial scales and its moral ethical resonances The chapters in this book were originally published in the journals Water International and International Journal of Water Resources
