Contemporary Political Ideologies Lyman Tower Sargent, 1969 **Ideological Fixation** Azar Gat, 2022-10-04 Ideological divides and clashes have reemerged with great intensity throughout the world In the United States they have become particularly venomous Each side in America's escalating ideological civil war charges the other with concocting fake news and alternative facts The other side is widely viewed as malicious irrational or downright stupid and often as barely legitimate People are deaf to claims about reality that come from the opposite camp no matter how valid they might be In exploring this phenomenon the book combines insights from evolutionary psychology regarding the nature of some of our deepest proclivities with a broad sweep through history It proceeds from the Stone Age to the rise of civilization the great religions and modernity to a critique of fundamental factual premises that underlie some of the major debates dominating today's liberal democracies not least the United States **Chinese Ideology** Shiping Hua, 2021-08-16 This book traces ideological trends in China through a range of historical and comparative perspectives spanning the ancient belief systems of Confucianism Legalism and Taoism to political ideologies of the present day Chapters in this edited volume are divided into four parts traditional Chinese ideology ideology of the Republic Maoism as an ideology and post Mao ideology zoning in on

specific historical periods from the Qing and Republic periods to the reform era as well as the period after the founding of the PRC through which Mao Zedong's political thought is notably discussed from the perspective of epistemology and the global impact of Maoism. Key topics include Sun Yat-sen as the Father of the Republic, Li Dazhao the early Marxist theoretician, Chiang Kai-shek and his nationalist Fascism, Liang Qichao's emotional appeals through liberal political discourse, Jiang Zemin's theory of Three Represents de-emphasising the Marxist concept of class, Hu Jintao's theory of Harmonious Society and Xi Jinping's political thought. Contributions from world leading scholars take both comparative and critical approaches examining not only how studies of ideology are relevant but how Chinese ideologies have retained their own characteristics distinct to the West. As the first comprehensive study of this subject in the English language, Chinese Ideology will appeal to students and scholars of philosophy, political science, history and Asian studies more broadly.
