Content and Method in Christian Theology Alan PF Sell, 2014-11-27 For three decades he flashed like a meteor across the theological horizon and then vanished

*The Method of Christian Theology* Rhyné Putman, 2021-05-15 In *The Method of Christian Theology* Rhyné Putman guides readers through the essential first words of systematic theology. Written for entry level theology students, this book gives clear suggestions about how to use theological sources, how to reason through difficult problems, and how to apply theological reflection to paper writing and preaching. By studying the foundations of theology, readers will be better equipped to serve God's people in whatever ministry they are called to.

*Sino-Christian Theology* Pan-Chiu Lai, 2010 Sino-Christian theology usually refers to an intellectual movement that emerged in Mainland China since the late 1980s. The present volume aims to provide a self-explaining sketch of the historical development of this theological as well as cultural movement. In addition to the analyses on the theoretical issues involved and the articulations of the prospect, concrete examples are also offered to illustrate the characteristics of the movement.

The Metaphysics of Historical Jesus Research Jonathan Rowlands, 2015-10-15 In this book, Rowlands interrogates the theological and philosophical foundations of the Quest for the historical Jesus from Reimarus to the present day, culminating in a call for greater metaphysical transparency and diversity in the discipline. This multidisciplinary approach to historical Jesus research, drawing on historiography, sociology, philosophy, and theology, makes a significant and original contribution to the field. Part I outlines the implicit role of metaphysical presuppositions in historical methodology by examining the concept of an historiographical worldview. Part II provides an overview of the Quest for the historical Jesus, demonstrating that the disparate historiographical worldviews operative in the Quest evidence a particular shared characteristic in that they might accurately be described as secular. Rowlands' study concludes with a call for a greater plurality and openness regarding the philosophical and theological presuppositions at work in historical Jesus research.

*The Metaphysics of Historical Jesus Research* is of interest to students and scholars working on New Testament studies and historical Jesus research.

The Handbook of Religion and Communication Yoel Cohen, Paul A. Soukup, 2023-02-22 Provides a contemporary view of the intertwined relationship of communication and religion. *The Handbook of Religion and Communication* presents a detailed investigation of the complex interaction between media and religion, offering diverse perspectives on how both traditional and new media sources continue to impact religious belief and practice across multiple faiths around the globe. Contributions from leading international scholars address key themes such as the changing role of religious authority in the digital age, the role of media in cultural shifts away from religious institutions, and the ways modern technologies have transformed how religion is communicated and portrayed. Divided into five parts, the Handbook opens with a state-of-the-art overview of the subject's intellectual landscape, introducing the historical background, theoretical foundations, and major academic approaches to communication, media, and religion. Subsequent sections focus on institutional and functional perspectives.

theological and cultural approaches and new approaches in digital technologies The essays provide insight into a wide range of topics including religious use of media religious identity audience gratification religious broadcasting religious content in entertainment films and religion news reporting about religion race and gender the sex religion matrix religious crisis communication public relations and advertising televangelism pastoral ministry death and the media online religion future directions in religious communication and more Explores the increasing role of media in creating religious identity and communicating religious experience Discusses the development and evolution of the communication practices of various religious bodies Covers all major media sources including radio television film press digital online content and social media platforms Presents key empirical research real world case studies and illustrative examples throughout Encompasses a variety of perspectives including individual and institutional actors academic and theoretical areas and different forms of communication media Explores media and religion in Judeo Christian traditions Islam Buddhism Hinduism religions of Africa Atheism and others The Handbook of Religion and Communication is an essential resource for scholars academic researchers practical theologians seminarians mass communication researchers and undergraduate and graduate students taking courses on media and religion
