Making Space for Active Learning Anne C. Martin, Ellen Schwartz, 2014-06-13 This powerful collection will inspire new and veteran teachers to make space for children's interests for teaching as relational and intellectual work and for new insights and ideas. The authors introduce the Prospect Center's Descriptive Review of Practice a collaborative inquiry process that provides an opportunity for teachers to examine their practice and gain new perspectives from other participants. The contributors to this volume respond to each child's modes of thinking as they develop curriculum or find wiggle room in curricula they are given. By demonstrating how it is possible to pursue careful knowledge of craft this book offers ways of teaching that allow for continuing growth and change.

Exceptional Child Education Resources, 2002 [The Differentiated Math Classroom](#) Miki Murray, 2007 In every mathematics classroom the need for differentiated instruction is present in many of its acute. Students learn at different rates in different ways with different successes and different challenges. Instruction must be flexible enough to meet everyone's needs and nurturing enough to not only support growth but also address the frustration that often leads to mathphobia. *The Differentiated Math Classroom* can help make high quality differentiated instruction a classroom reality. It's the usable comprehensive resource teachers need to help students of all levels and abilities succeed with math. Whether you teach math sixty minutes a day or six periods a day *The Differentiated Math Classroom* describes both the big ideas of differentiation and the day to day teaching that makes it work. Miki Murray and Jenny Jorgensen present everything you need to get started and to help all students meet national standards including ideas for Setting up a classroom to maximize opportunities for differentiation and establish community. Getting to know students strengths and needs through high quality assessments. Devising anchor activities that help students work independently with meaningful math content while you free up time for individual instruction. Creating tiered lessons that scaffold content and provide the flexibility to challenge some students and offer assistance to others. Murray and Jorgensen offer practical ideas for planning and designing units that engage students and facilitate learning about important math concepts as well as teaching tools questions for professional reflection and answers to teachers most frequently asked

questions about differentiation Discover that differentiated instruction is a flexible framework that supports all math learners Filled with examples from real classes and samples of student work The Differentiated Math Classroom will help every child learn more effectively by showing you how to think about students mathematics and your teaching in powerful new ways

Losing Our Minds Deborah L. Ruf,2005 Wouldn t it be a disgrace if we lost the brightest students now attending our nation s schools Dr Deborah L Ruf establishes that there are far more highly gifted children than previously imagined yet large numbers of very bright children are never discovered by their schools Using 78 gifted and highly gifted children as her examples she illustrates five levels of giftedness Parents will be able to estimate which of the five levels of giftedness their child fits by comparing their own child s developmental milestones to those of the children described in the book This book contains practical advice for parents including how to find a school that works for your child Book jacket **Minnesota**
