also accurately captures the rich post Vietnam operational and doctrinal history of the Army and the Marine Corps The simplistic cartoon of dim witted generals fixated on the Fulda Gap is replaced here by a more accurate version where engaged senior officers studied the security environment absorbed important lessons and began to improve the learning capacity of the military services Finally *Lifting the Fog of Peace* assesses the state of contemporary stability operations and what must be done to further prepare our Armed Forces for modern war on the low end of the spectrum of conflict It will be a must read on the E Ring of the Pentagon and in security studies programs across the nation Joseph J Collins Professor National War College and former Deputy Assistant Secretary of Defense for Stability Operations Counterinsurgency and stability operations in Iraq and Afghanistan are only the most recent examples of the U S Armed Forces fighting insurgents building infrastructure enforcing laws and governing cities For more than two centuries these assignments have been a regular part of the military s tasks yet until recently the lessons learned from the experiences have seldom been formally incorporated into doctrine and training As a result each generation of soldiers has had to learn on the job Janine Davidson traces the history of the U S military s involvement in these complex and frustrating missions By comparing the historical record to the current era Davidson assesses the relative influence of organizational culture and processes institutional structures military leadership and political factors on the U S military s capacity to learn and to adapt Pointing to the case of Iraq she shows that commanders serving today have benefited at the tactical level from institutional changes following the Vietnam War and from the lessons of the 1990s Davidson concludes by addressing the question of whether or not such military learning in the absence of enhanced capabilities and capacity in other U S government agencies will be sufficient to meet the complex challenges of the 21st century Janine Davidson a former Air Force pilot is a professor of national security at George Mason University currently serving in the Pentagon as Deputy Assistant Secretary of Defense for Plans The views presented in this book are those of the author and do not necessarily represent the views of the Department of Defense or its Components
