- A. orbit                                      C. inertia  
B. gravity                                  D. weight

B. the ball that is falling  
C. both balls  
D. neither ball
- 4 Penny says that dust particles in space cannot be pulled together by the force of gravity because dust particles have very little mass. Ella says that as long as dust particles have mass at all, the force of gravity can pull dust particles toward each other. Who has the better argument, and why?
- A. Penny, because objects with only a little mass are not affected by gravity.  
B. Penny, because dust particles in space are not orbiting Earth.  
C. Ella, because any two objects exert a gravitational force on each other.
