same time the park consistently fails to meet environmental expectations and objectives Thus the PNKB represents a clear case of how fortress conservation fails both people and the environment Regrettably it is not an isolated example of flawed conservation policy Instead it is indicative of the institutional shortcomings and systemic failures inherent in the dominant ways in which conservation is pursued by states and promoted by international conservation actors in the Congo Basin and in other parts of the world **Project Performance Report** Global Environment Facility,2001 *Libri* ,2001 Vols 4 24
