Getting to the Core of Literacy for History/Social Studies, Science, and Technical Subjects, Grades 6–12 Vicky Giouroukakis, Maureen Connolly, 2013-05-14 Literacy is not just for English teachers anymore. The new Common Core English Language Arts Standards aren't just for English teachers. Fluent reading and writing are critically important to the study of history, social studies, science, and technical subjects too. What's more, the progress your students make is directly tied to their ability to process information they read and to express their ideas in writing. So how do you make literacy a focus of your teaching without taking time away from essential content? This practical resource, packed with teacher-tested CCSS-based sample lessons, shows you how using the Backward Design approach to set and meet your goals. Each lesson template includes the teaching strategies you'll utilize, ways to incorporate technology and media, variations for differentiation and interdisciplinary connections, links to the work of major educational theorists. Following these models, you'll set the CCSS in your sights and develop lessons that both meet standards and fit your classroom. Before you know it, you'll be infusing reading and writing across your curriculum in purposeful and meaningful ways. Statement, 2012

Whitewashed Critical Perspectives Catherine Compton-Lilly, Tisha Lewis Ellison, Kristen Perry, Peter Smagorinsky, 2021-06-30 This volume examines revolutionary constructs in literacy education and demonstrates how they have been gentrified, whitewashed, and appropriated, losing their revolutionary edge so as to become palatable for the mainstream. Written by top scholars in literacy education, chapters cover key concepts that were originally conceived as radical theories to upset the status quo, including Third Space, Funds of Knowledge, Culturally Relevant Pedagogies, and more. Each chapter addresses how the core theory was culturally appropriated and defanged to support rather than take down racial and societal hierarchies. Critiquing the harmful impact of watering down these theories, the contributors offer ways to restore the edge to these once groundbreaking ideas, reject racist and assimilationist trends, and support the original vision behind these liberatory theories. In so doing, this volume adopts a truly radical critical stance that is essential for researchers, scholars, and students in literacy education.
