Business Writing Bianca Harrington, AI, 2025-02-28 Business Writing argues that effective professional communication is a core driver of corporate success. It's not just about writing well; it's about strategically aligning communication with business objectives. Poor communication can lead to costly errors and damaged relationships, while a strategic approach cultivates trust and enhances efficiency. For example, a well-crafted proposal can secure a key client, demonstrating the direct impact of writing on the bottom line. This book provides a framework for mastering business communication, covering clear and concise writing, audience analysis, and document formatting. Rather than offering piecemeal advice, it emphasizes developing a holistic strategy to improve performance across all levels. The chapters progress from fundamental principles to specific document types, such as reports and emails, concluding with ethical considerations. Real-world examples and exercises reinforce key concepts, making it a practical guide for improving your business writing skills.

Designing successful products and services in the digital age requires a multi-disciplinary team with expertise in interaction design, visual design, industrial design, and other disciplines. It also takes the ability to come up with the big ideas that make a desirable product or service, as well as the skill and perseverance to execute on the thousand small ideas that get your design into the hands of users. It requires expertise in project management, user research, and consensus building. This comprehensive, full-color volume addresses all of these and more, with detailed how-to information, real-life examples, and exercises. Topics include assembling a design team, planning and conducting user research, analyzing your data, and turning it into personas, using scenarios to drive requirements definition, and design collaborating in design meetings, evaluating and iterating your design, and documenting finished design in a way that works for engineers and stakeholders alike.
