Making Sense of Science: Energy Kirsten R. Daehler, Jennifer Folsom, Mayumi Shinohara, 2011 This comprehensive professional development course for grades 6-8 science teachers provides all the necessary ingredients for building a scientific way of thinking in teachers and students focusing on science content inquiry and literacy. Teachers who participate in this course learn to facilitate hands-on science lessons, support evidence-based discussions, and develop students' academic language and reading and writing skills in science along with the habits of mind necessary for sense making and scientific reasoning. Energy for Teachers of Grades 6-8 consists of five core sessions: Session 1 What is Energy, Session 2 Potential Energy, Session 3 Heat Energy, Session 4 Conservation of Energy, Session 5 Energy in Ecosystems. The materials include everything needed to effectively lead this course with ease: Facilitator Guide with extensive support materials and detailed procedures that allow staff developers to successfully lead a course; Teacher Book with teaching science and literacy investigations along with a follow-up component; Looking at Student Work designed to support ongoing professional learning communities; CD with black line masters of all handouts and charts to support group discussion and sense making; course participation certificates; student work samples and other materials that can be reproduced for use with teachers. **Holt**
