Government Accountability Office,2007 **Politics and Policy Knowledge in Federal Education** Steven Putansu,2020-02-27 Policy knowledge derived from data information and evidence is a powerful tool for contributing to policy discussions and debates and for understanding and improving the effectiveness efficiency and equity of government action For decades politicians advocates reformers and researchers have simultaneously espoused this value while also paradoxically lamenting the lack of impact of policy knowledge on decision making and the failure of related reforms This text explores this paradox identifying the reliance on a proverb of using policy knowledge to supplant politics as a primary culprit for these perceived failures The evidence in this book suggests that any consideration of the role of policy knowledge in decision making must be considered alongside rather than in place of considerations of the ideologies interests and institutional factors that shape political decisions This contextually rich approach offers practical insights to understand the role of policy knowledge and to better leverage it to support good governance decisions *2010 Tax Filing Season: IRS's Performance Improved in Some Key Areas, but Efficiency Gains are Possible in Others* , *Intercity Passenger and Freight Rail* Susan Fleming,2011-06 Concerns about the weak economy congestion in the transport system and the potentially harmful effects of air emissions generated by the transport sector have raised awareness of the potential benefits and costs of intercity passenger and freight rail relative to other transport modes such as highways This report reviewed 1 the extent to which transport policy tools that provide incentives to shift passenger and freight traffic to rail may generate emissions congestion and economic development benefits and 2 how project benefits and costs are assessed for investment in intercity passenger and freight rail and how the strengths and limitations of these assessments impact federal decision making Charts and tables A print on demand report **Foreign Medical Schools** George A.
