ongoing LGBTQ family marginalization Finally in Part 3 the author draws attention to two aspects of donor conception that are common in the queer community but receive virtually no attention in the bioethical literature known donation and donor sibling contact relationships and shows what we miss philosophically when these queer practices are erased from the bioethical discussions around donor conception LGBTQ Family Making Reproductive Ethics and the Re Shaping of Family Values is an essential resource for researchers or advanced students working in Moral Philosophy especially Reproductive Ethics Feminist Philosophy and LGBTQ Philosophy Bioethics and Gender Sexuality and Women s Studies
