Training and Event Management is an integral part of SAP HR and has interfaces to all of the relevant SAP application components, making it a basis for extending and updating your employees' skills and knowledge. Integration with Personnel Development lets you convert training proposals directly into bookings for employees with qualification deficits or needs.

The Training and Event Management component has a wide range of powerful functions to enable you to plan and manage all kinds of business events from training events to conventions simply and efficiently.

Its flexible reporting and appraisal functions provide you with important decision support feedback to ensure that the business events you offer are both high quality and effective

Integration

If you use Training and Event Management integrated with other SAP components, there is a direct exchange of data via the various interfaces, allowing efficient data maintenance in Training and Event Management.

- **Organizational Management**: When an internal training occurs, the training costs can be transferred to the department which conducts the training
- **Personnel Administration**: The personnel number, name and other details of the trainee can be referred with this integration
- **Time Management**: This integration gives the information to the training administrator whether the day is a working day or a day off while scheduling the training program
- **Personnel Development**: Transferring the training program as a qualification to the employee is enabled with this integration
- **Cost Accounting**: Cost flows of training is enabled with this integration

Features

- *Training and Event Management provides you with an extensive range of powerful functions for every stage of event management: preparation, planning, and execution.*

- *Business Event Preparation*
- *Create all of the necessary master data (such as resources)*
