Global Perspectives on Social Media Influencers and Strategic Business Communication Bi, Nicky Chang, Zhang, Ruonan, 2024-05-22. In an era of social media influencers wielding unprecedented power over global consumer decisions, as digital natives increasingly turn to influencers for guidance, the need for comprehensive research on their impact becomes paramount. Brands aiming to connect with a precisely targeted audience must grapple with ethical considerations in this rapidly evolving sphere. *Global Perspectives on Social Media Influencers and Strategic Business Communication* delves into influencer research and practices, exploring their impact on various industries and sectors. This book dissects the motives and characteristics of social media influencers and navigates the terrain of ethical considerations surrounding their collaboration with businesses and organizations. This book covers influencers' effect on brand loyalty, cultural norms, community building, and their role in business management, advertising, and strategic communication. The book dissects the impacts of social media influencers on audience behavior, exploring areas such as brand attitudes, purchase intentions, and the dynamics of parasocial relationships. It examines the nuances of engagement, differentiating between paid endorsements, sponsored content, and pure electronic word of mouth, while also spotlighting the influence of live streaming on consumer behaviors. This book is a valuable resource for businesses, strategic communicators, marketers, scholars, and anyone seeking a profound understanding of the dynamic world of social media influencers.

Making Sense of AI Anthony Elliott, 2021-09-23. Industrial robots, self-driving cars, customer service chatbots, and Google's algorithmic predictions have brought the topic of artificial intelligence into public debate. Why is AI the source of such intense controversy, and what are its economic, political, social, and cultural consequences? Tracing the changing fortunes of artificial intelligence, Elliott develops a systematic account of how automated intelligent machines impact different spheres and aspects of public and private life. Among the issues discussed are the automation of workforces, surveillance, capitalism, warfare, and lethal autonomous weapons, the spread of racist robots, and the automation of social inequalities. Elliott also considers the decisive role of AI in confronting global risks and social futures, including global

pandemics such as COVID 19 and how smart algorithms are impacting the search for energy security and combating climate change Making Sense of AI provides a judiciously comprehensive account of artificial intelligence for those with little or no previous knowledge of the topic It will be an invaluable book both for students in the social sciences and humanities and for general readers
