Home Production of Quality Meats and Sausages , 2012-03-21 There has been a need for a comprehensive one volume reference on the manufacture of meats and sausages at home There are many cookbooks loaded with recipes

which do not build any foundation for the serious hobbyist to follow This leaves him with little understanding of the sausage making process and afraid to introduce his own ideas There are professional books that are written for meat plant managers or graduate students unfortunately these works are written in such difficult technical terms that most of them are beyond the comprehension of an average person Home Production of Quality Meats and Sausages bridges the gap that exists between highly technical textbooks and the requirements of the typical hobbyist In order to simplify this gap to the absolute minimum technical terms were substituted with their equivalent but simpler terms and many photographs drawings and tables were included The book covers topics such as curing and making brines smoking meats and sausages U S Standards making fresh smoked emulsified fermented and air dried products making special sausages such as head cheeses blood and liver sausages low salt low fat and Kosher products hams bacon butts and loins poultry fish and game creating your own recipes and much more To get the reader started 172 recipes are provided which were chosen for their originality and historical value They carry an enormous value as a study material and as a valuable resource on making meat products and sausages Although recipes play an important role in these products it is the process that ultimately decides the sausage quality It is perfectly clear that the authors don t want the reader to copy the recipes only We want him to understand the sausage making process and we want him to create his own recipes We want him to be the sausage maker

Handbook of Fermented Meat and Poultry Fidel Toldrá,Iciar Astiasaran,Joseph Sebranek,Regine Talon,2014-12-31

Fermented meat products have been consumed for centuries in many different parts of the world and constitute one of the most important groups of food. Bacterial cultures are used in their manufacture to preserve the meat and confer particular textures and sensory attributes. Examples of fermented meats include salami, chorizo, pepperoni, and saucisson. This fully revised and expanded reference book on meat fermentation presents all the principle fermented meat products and the processing technologies currently used in their manufacture. The 54 chapters of this substantial book are grouped into the following sections: Meat fermentation worldwide overview; production and principles; Raw materials; Microbiology and starter cultures for meat fermentation; Sensory attributes; Product categories; general considerations; Semidry fermented sausages; Dry fermented sausages; Other fermented meats and poultry; Ripened meat products; Biological and chemical safety of fermented meat products; Processing, sanitation and quality assurance. There are five new chapters in the second edition that address the following topics: Smoking and new smoke flavourings; Probiotics; Methodologies for the study of the microbial ecology in fermented sausages; Low sodium in meat products and Asian sausages. Handbook of Fermented Meat and Poultry Second Edition provides readers with a full overview of meat fermentation, the role of microorganisms naturally present and or added as starter cultures, safety aspects and an account of the main chemical, biochemical, physical and microbiological changes that occur in processing and how they affect final quality. Finally, readers will find the main types of worldwide fermented meat products typically produced in different areas with the description of their main characteristics. *The Manufacture of Sausages* James C. Duff,1899 Republic of Barbecue S. D. Engelhardt,2010-01-01 Explore the world of barbecue as food and culture through first person stories from pit masters, barbecue joint owners, sausage makers and wood suppliers. It's no overstatement to say that the state of Texas is a republic of barbecue. Whether it's brisket, sausage, ribs or chicken, barbecue feeds friends while they catch up, soothes tensions at political events, fuels community festivals, sustains workers of all classes, celebrates brides and grooms and even supports churches. Recognizing just how central barbecue is to Texas's cultural life, Elizabeth Engelhardt and a team of eleven graduate students from the University of Texas at Austin set out to discover and describe what barbecue has meant to Texans ever since they first smoked a beef brisket. Republic of Barbecue presents a fascinating, multifaceted portrait of the world of barbecue in Central Texas. The authors look at everything from legendary barbecue joints in places such as Taylor and Lockhart to feedlots, ultra modern sausage factories and sustainable forests growing hardwoods for barbecue pits. They talk to pit masters and proprietors who share the secrets of barbecue in their own words. Like side dishes to the first person stories, short essays by the authors explore a myriad of barbecue's themes: food history, manliness and meat technology, nostalgia, civil rights, small town Texas identity, barbecue's connection to music, favorite drinks such as Big Red, Dr Pepper, Shiner Bock and Lone Star beer to mention only a few. An ode

to Texas barbecue in films a celebration of sports and barbecue and a pie chart of the desserts that accompany brisket all find homes in the sidebars of the book while photographic portraits of people and places bring readers face to face with the culture of barbecue This beautiful collection colorful enough to display as a coffee table book contributes significantly to the oral history tradition and the study of barbecue simultaneously Journal of American Folklore Tar Heels probably shouldn't own up to liking Texas barbecue but we have no hesitation about saying that we love this book about it The voices of the folks who make it happen and this book's wonderful photographs add up to a splendid portrait of Lone Star barbeculture John Shelton Reed and Dale Volberg Reed authors of *Holy Smoke The Big Book of North Carolina Barbecue* *The National Provisioner*, 1928 *Pictorial Review*, 1921 Includes music *California Cultivator*, 1924 **Douglas's receipt book: recipes for bacon curers [&c.]**.
