Crawford, 2015-03-31 In his bestselling book Shop Class as Soulcraft Matthew B Crawford explored the ethical and practical importance of manual competence as expressed through mastery of our physical environment In his brilliant follow up The World Beyond Your Head Crawford investigates the challenge of mastering one s own mind We often complain about our fractured mental lives and feel beset by outside forces that destroy our focus and disrupt our peace of mind Any defense against this Crawford argues requires that we reckon with the way attention sculpts the self Crawford

investigates the intense focus of ice hockey players and short order chefs the quasi autistic behavior of gambling addicts the familiar hassles of daily life and the deep slow craft of building pipe organs He shows that our current crisis of attention is only superficially the result of digital technology and becomes more comprehensible when understood as the coming to fruition of certain assumptions at the root of Western culture that are profoundly at odds with human nature The World Beyond Your Head makes sense of an astonishing array of common experience from the frustrations of airport security to the rise of the hipster With implications for the way we raise our children the design of public spaces and democracy itself this is a book of urgent relevance to contemporary life
