Employment Regulation in the Workplace Robert K Robinson, GERALYN McClure Franklin, 2015-01-28 This textbook acquaints readers with the major federal statutes and regulations that control management and employment practices in the American workplace. The material is presented from the perspective that the human resource professional is the employer's representative and is therefore responsible for protecting the employer's interests and reducing the employer's exposure to litigation through monitoring activities and viable employee policies. The book is designed as a tool for today's business and management professionals and unlike some other texts in the field maintains a pro business or pro management approach. The authors have skilfully crafted *Employment Regulation in the Workplace* to be an effective learning tool. Each chapter opens with learning objectives and an example scenario and each chapter contains plenty of illustrative figures, boxes and diagrams. Chapters conclude with a listing of key terms, questions for discussion and two case exercises. The book also includes a comprehensive bibliography.

Life Course Perspectives on Military Service Janet May Wilmoth, Andrew S. London, 2013 This edited volume provides a comprehensive and critical review of what we know about military service and the life course, what we don't know, and what we need to do to better understand the role of military service in shaping people's lives. It demonstrates that the military, like colleges and prisons, is a key social institution that engages individuals in early adulthood and shapes processes of cumulative disadvantage over the life course. The chapters provide topical syntheses of the vast but diffuse research literatures on military service and the life course, while the volume as a whole helps to set the agenda for the next generation of data collection and scholarship. Chapter authors pay particular attention to how the military has changed over time, how experiences of military service vary across cohorts and persons with different characteristics, how military service affects the lives of service members, spouses, children, and families, and the linkages between research and policy.

Bodies as Evidence Mark Maguire, Ursula Rao, Nils Zurawski, 2018-11-30 Through global case studies that explore biometric identification, border control, forensics, militarized policing, and counterterrorism, the contributors show how bodies have become critical sources of evidence that is organized and deployed to classify, recognize, and manage human life.
