Welcome to Your Designer Planet! Richard Leviton, 2007-09-05 We now live in the time of the Gaian hierophant. This is the one who reveals and shows us how to relate to the sacred aspects of Gaia our planet. Who is this hierophant? Each of us when we join the campaign with Gaia against the desecration of our natural environment. But first we have to discover what the Earth really is. The Earth's thousands of sacred sites hold a secret they are functional parts of the planet's geomantic body consciousness nodes in the Earth's subtle body. Each veils a Light temple each once known widely and remembered in myth and legend. *Welcome to Your Designer Planet* documents 165 different kinds. The Earth is not an accident of the cosmos but was designed specifically for humans as an extended Mystery temple primed to support and enhance our greater awareness. And the designers intended that humans help maintain it. Want to help the ecosystem and modulate global warming and climate change? Plug yourself into the Earth's Light grid through your nearest sacred site and start helping Earth Mysteries researcher Richard Leviton presents a working model of the Earth's geomantic reality based on 24 years of research. The world's myths are the doorway into this fantastic domain of the Earth's visionary geography showing us where to go and what to do and even what kinds of spiritual beings to expect to see. The future of the Earth is in our hands. Here are some pages from its design manual showing us how to fine tune our wonderful host planet.

Flying Star Feng Shui Stephen Skinner, 2002-11-15 *Flying Star Feng Shui* adds a new time dimension to

feng shui practice reflecting the fact that the subtle energies present in our living environment are constantly changing The flying star combinations make it possible to respond to or prepare for these changing energy situations These methods produce impressive and rapid results and can both shorten periods of bad luck while initiating or prolonging periods of good fortune These concepts have previously been available only from a few untranslated or highly technical sources Author Stephen Skinner has an international reputation as a popularizer of feng shui concepts for Western readers In *Flying Star Feng Shui* he introduces one of the most effective and popular aspects of feng shui practice today Encyclopaedia of the History of Science, Technology, and Medicine in Non-Western Cultures Helaine Selin, 1997-07-31 The Encyclopaedia fills a gap in both the history of science and in cultural studies Reference works on other cultures tend either to omit science completely or pay little attention to it and those on the history of science almost always start with the Greeks with perhaps a mention of the Islamic world as a translator of Greek scientific works The purpose of the Encyclopaedia is to bring together knowledge of many disparate fields in one place and to legitimize the study of other cultures science Our aim is not to claim the superiority of other cultures but to engage in a mutual exchange of ideas The Western academic divisions of science technology and medicine have been united in the Encyclopaedia because in ancient cultures these disciplines were connected This work contributes to redressing the balance in the number of reference works devoted to the study of Western science and encourages awareness of cultural diversity The Encyclopaedia is the first compilation of this sort and it is testimony both to the earlier Eurocentric view of academia as well as to the widened vision of today There is nothing that crosses disciplinary and geographic boundaries dealing with both scientific and philosophical issues to the extent that this work does xi
