 Johll's Exploring Chemistry covers the standard topics for the nonmajors course in the typical order but each chapter unfolds  
 in the context of a single case study that helps students connect what they are learning to real life situations For example  
 students work through the often difficult topics of molecular structure gas laws and organic chemistry by learning about the  
 development of powerful new chemotherapy drugs new technologies for screening airline passengers and the creation of  
 biodegradable biopolymers It's the same case driven approach that Johll uses in his acclaimed Investigating Chemistry  
 now in its Third Edition but Exploring Chemistry goes beyond the other book's specific focus on examples from forensic  
 science to use real life stories from cooking athletics genetics green chemistry and more *Principles of Biochemistry* David
