Dre Baldwin Handbook:

Hoophandbook Dre Baldwin, 2017-10-04 Conditioning and mentality together make up 90% of the game of basketball. Yet very few players spend any serious time on either unless forced to do so. This is also why 99% of basketball players will never be professional at the game. At the early season practices of practically every team I ever played on, the coach would always announce what was the 1 way anyone could guarantee themselves a spot on the team. Defense. Warming up is your way of getting the body prepared to go all out. Just as you would warm up a rubber band pulled out of the freezer before trying to stretch it too far tight cold muscles are more prone to pulls, strains, and tears, all of which you don't want. If you know anything about basketball and I'll assume you do since you have this Handbook, you know that no player can score all the points all the time. Maybe you don't even want to score the most on your team. For every one player shooting, there are four other players doing something else. The more facts of the game in which you can establish yourself as a contributor, the more ways you can impact a game, the longer you will be a valuable sought after basketball player.

The Signature Manuals: Point Guards Dre Baldwin, 2017-02-17 You're tired of coming up short in Basketball. You're done scanning the tryouts list to not see your name on it. You are finished with being the one who has to deal with disappointment. You're done being the invisible player. You see other players who have a LOT more game than you, doing what they want to do on the court while you struggle. You see players who have LESS game than you, getting attention, respect, and roster spots that should be yours. You've tried different things but the results aren't coming, and when they do come, they're not enough. You're serious about your game and you want a serious game and serious results to match. Maybe you started late. Maybe you've been cut from teams over and over again. Maybe you're close to just quitting on basketball completely. I'm not here to convince you to not quit. But since you have this Manual in your hands, use it. Follow what I tell you here and see the results. If after using this, you still want to give it up, at least you'll know you gave it everything you had. And you can walk away in strength with your head held high. Deal. Good. I started playing basketball at age 14. Sat the varsity bench as a senior, my only year on the team. 5 years later, I started a 9 year professional basketball career. The Signature Manuals are the culmination of all the years of hard work I put in on the courts, organized and explained for you to put in the same work minus the years of trial and error. What you're left with is all the stuff that works. These Manuals will add any skill to your game that you're willing to put in the work to acquire. Any basketball skill you could possibly think of, and those that you wouldn't think of, is covered in these Manuals. The Signature Manuals are the exact drills and mindsets I used to go from the high school bench to the pros in just 5 years. You're an ambitious player and your goal is to take your game to the next level, and the next level after that. The Signature Manuals are for you. You're willing to work on your game exactly as I tell you to. The Signature Manuals are for you. You've been wanting to add to your skill set but just didn't know how. Good. Dre Baldwin,2017-03-17 The Crossover made basket combination Aside from dunking and maybe not even that there isn't a better feeling in the game of basketball Shake a defender off with a slick cross move then finish the move off by scoring The sidelines players and fans alike buzz with who is that guy girl with that nasty crossover Or they simply smile and nod having seen you do that before Either way you've done the ultimate good in basketball Created space from your defender shot the ball and the ball went in the basket This is Creating Your Own Shot in its essence There are other ways to create your own shot yes but they can only strive to match the feeling of the Crossover Scoring Move Nothing surpasses it not even dunking Any coach however will tell you that a move is worthless if it doesn't result in a made basket or at least a foul not just the shot itself Moves alone are not worth points So a nice crossover move isn't enough you have to finish the job This Crossover Scoring Moves Handbook teaches you how to get the job done the work and finish the job with points on the scoreboard

The Mental Workbook Dre Baldwin, 2017-06-15 The Mental Handbook is an award winning book But I realize the book itself wasn't enough I realize it's not enough to simply tell you how to build Mental Toughness Confidence Discipline I know my daily Work On Your Game Podcast though the best in its category and a giant step in the right direction isn't going to permanently change you by itself I know for a fact that changing your life from the inside out starting with your mindset and how you see YOURSELF isn't a second person job No matter how much I talk to you inspire and motivate you nothing I say to you will have a much impact on your life as what YOU say to you Which is why I created The Mental Workbook Setting goals and working hard are requirements for achievement Many people falsely believe that's all there is to it If that's all it takes why are so few people successful There's more much more to you reaching all your goals than just having them and working every day The Good News is I know the exact formula for creating anything you want in life I explain in detail how and why it works I walk you through each step of the program And most importantly I put you in position to do it yourself instead of just reading or hearing about it This is the exact program I follow myself still to this day I guarantee that it works And I DEMAND that you follow it It's called The Mental Workbook Let's start now *The Mines Handbook*, 1918 *A Handbook of*
