

Loading the laundry

WARNING

Avoid risk of explosion!

Items of clothing that have been pretreated with solvent-based cleaning agents, e.g. stain remover or dry cleaning chemical, could represent a potential explosion hazard in the contained area of the washing machine. Rinse these items thoroughly by hand before placing them into the machine.

CAUTION

Loose debris in the washing machine drum can damage the laundry. Before loading the laundry, check that there is no debris in the drum.

- ❑ Open the loading door.

- ❑ Unfold the sorted items of clothing and place them loosely into the drum. Mix up large and small items. Items of varying size will distribute better during the spin cycle.
- ❑ Do not exceed the maximum load: Overloading will cause poor wash results and increase wrinkling.

For best results it is recommended to load the drum depending on the fabric type:

Full Load	Cotton and Linens
1/2 Load	Permanent Press, Synthetic Blends and Poly Knits
1/3 Load	Wool, Delicates, Silk

- ❑ Close the loading door. Make sure not to trap any items of clothing between the loading door and rubber seal.
