Christian Science Monitor Breakfast:

The Christian Science Monitor Index ,2001 *The Surge* Larry J. Sabato,2015-03-16 The 2014 midterm election was one of the most significant in recent memory with a decisive turning of the tables in favor of Republicans With a now Republican controlled Senate and House at odds with a Democratic president with only two years left in office the fault lines within and between both parties have never been more tenuous In this book prominent elections scholar and political commentator Larry J Sabato brings together respected journalists and experts from across the political spectrum to examine every facet of the midterm election results and the implications for the 2016 election cycle In frank accessible prose each author offers insight that goes beyond the headlines to analyze what the midterm results mean and what is at stake in the coming presidential race Contributing authors joining Larry Sabato with chapters in the book include Professor Alan Abramovitz of Emory University Mark Blumenthal of Huffington Post Jamelle Bouie of Slate Rhodes Cook formerly of Congressional Quarterly Robert Costa of the Washington Post Ariel Edwards Levy of Huffington Post James Hohmann of Politico political writers and commentators Kyle Kondik and Geoff Skelley of the University of Virginia Center for Politics Jill Lawrence of Creators Syndicate Visiting Assistant Professor Josh Putnam of Appalachian State University Michael Toner and Karen Trainer of Wiley Rein LLP and Sean Trende of RealClearPolitics **Enough** Gabrielle Giffords,Mark Kelly,2014-09-30 Former Congresswoman Gabrielle Giffords and her husband astronaut Mark Kelly share their impassioned argument for responsible gun ownership After the 2011 Tucson shooting that nearly took her life basic questions consumed Gabby Giffords and her family Would Gabby survive the bullet through her brain Would she walk again Speak Her hard won recovery though far from complete has now allowed her and Mark to ask larger questions that confront us as a nation How can we address our nation s epidemic of gun violence How can we protect gun rights for law abiding citizens while keeping firearms out of the hands of criminals and the mentally ill What can we do about gun trafficking and other threats to our communities Enough goes behind the scenes of Gabby and Mark s creation of Americans for Responsible Solutions an organization dedicated to promoting responsible gun ownership and encouraging lawmakers to find solutions to gun violence despite their widespread fear of the gun lobby As gun owners and strong supporters of the Second Amendment Gabby and Mark offer a bold but sensible path forward preserving the right to own guns for collection recreation and protection while taking common sense actions to prevent the next Tucson Aurora or Newtown Poll after poll shows that most Americans agree with Gabby and Mark s reasonable proposals As the book follows Gabby and Mark from the halls of Congress to communities across the country it provides an intimate window into the recovery of one of our nation s most inspiring public figures and reveals how she and her husband have taken on the role of co advocates for one of the defining issues of our time

America's Covert Border War Todd Bensman,2021-02-02 This thirteen year work of journalism finally settles one of the nation s most controversial and politically powerful ideas about the American southern border that Islamic jihadists might

infiltrate it and commit terrorist acts Perhaps no other idea about the border has sown more conflict claims counterclaims rebuttals and false narratives on all sides This book provides a first comprehensive neutral baseline of truth about the threat goring oxen on both sides of the partisan divide It documents an ambitious and intrigue laden covert American war on terror effort that stretches from the Mexican border to the tip of South America Its existence to protect the homeland from terrorist infiltration was often regarded as entirely imagined until migrating jihadists recently started killing and wounding hundreds in Europe Americans concerned by unchecked global migration porous borders and national security also may feel surprised to learn that thousands of long haul migrants from the Islamic world similarly breach the US Mexican border each year among them hardened jihadists despite media insistence that none of this traffic exists It does The secret American campaign has prevented land border infiltration attack on US soil safeguarding an unknowing nation so far from Europe s bloody ongoing experience But this geographically sprawling effort is suffering from denialism and neglect at America s peril just as Europe was before its calamity How much longer can these programs keep America safe without the public recognition that they exist and the needed care and attention that acknowledgment would bring This book is much more than revelation and complaint it provides solutions to better protect the homeland from this chronically misunderstood border threat
