Christianising The Roman Empire:

Christianizing the Roman Empire Ramsay MacMullen, 1984-01-01 Offers a secular perspective on the growth of the Christian Church in ancient Rome identifies nonreligious factors in conversion and examines the influence of Constantine

Christianity and the Roman Empire Ralph Martin Novak, 2001-02-01 The rise of Christianity during the first four centuries of the common era was the pivotal development in Western history and profoundly influenced the later direction of all world history Yet for all that has been written on early Christian history the primary sources for this history are widely scattered difficult to find and generally unknown to lay persons and to historians not specially trained in the field In *Christianity and the Roman Empire* Ralph Novak interweaves these primary sources with a narrative text and constructs a single continuous account of these crucial centuries The primary sources are selected to emphasize the manner in which the government and the people of the Roman Empire perceived Christians socially and politically the ways in which these perceptions influenced the treatment of Christians within the Roman Empire and the manner in which Christians established their political and religious dominance of the Roman Empire after Constantine the Great came to power in the early fourth century CE Ralph Martin Novak holds a Masters Degree in Roman History from the University of Chicago For Undergraduates seminarians general audiences

The Christians and the Roman Empire Marta Sordi, 1994 The Christians and the Roman Empire overturns the myth of an unrelenting persecution of the subversive Christian outlaw Using contemporary sources and authentic documents including imperial edicts and records of the deeds of non legendary martyrs Marta Sordi shows that the conflict was primarily religious and almost never political The Christians actually continued to profess their loyalty to the Roman Empire during the periods of persecution and the Empire which almost never thought of the Christians as a threat to security often found itself acting simply as the secular arm of religious authorities during these periods of social and cultural intolerance

The Making of a Christian Empire Elizabeth DePalma Digeser, 2000 The Making of a Christian Empire is the first full length book to interpret the Divine Institutes as a historical source Exploring Lactantius s use of theology philosophy and rhetorical techniques Digeser perceives the Divine Institutes as a sophisticated proposal for a monotheistic state that intimately connected the religious policies of Diocletian and Constantine both of whom used religion to fortify and unite the Roman Empire

Christianity in the Later Roman Empire: A Sourcebook David M. Gwynn, 2014-11-20 This sourcebook gathers into a single collection the writings that illuminate one of the most fundamental periods in the history of Christian Europe Beginning from the Great Persecution of Diocletian and the conversion of Constantine the first Christian Roman emperor the volume explores Christianity s rise as the dominant religion of the Later Roman empire and how the Church survived the decline and fall of Roman power in the west and converted the Germanic tribes who swept into the western empire These years of crisis and transformation inspired generations of great writers among them Eusebius of Caesarea Ammianus Marcellinus Julian the Apostate Ambrose of Milan John Chrysostom

Jerome and Augustine of Hippo They were also years which saw Christianity face huge challenges on many crucial questions from the evolution of Christian doctrine and the rise of asceticism to the place of women in the early Church and the emerging relationship between Church and state All these themes will be made accessible to specialists and general readers alike and the sourcebook will be invaluable for students and teachers of courses in history and church history the world of late antiquity and religious studies

Christianity in the Roman Empire Robert E. Winn, 2018 Christianity in the Roman Empire is a topical and biographical introduction to Christianity before Constantine While its focus is the historical development of the proto orthodox community Robert Winn aims to bridge the gap between contemporary Christians and those who lived in the Roman Empire To do this his chapters discuss particular topics such as prayer biblical interpretation worship and persecution as well as prominent and controversial individuals such as Ignatius of Antioch Justin Martyr Melito of Sardis and Tertullian Part One addresses the world of the apostolic fathers Part Two addresses hostility to Christianity and the response of Christians to this antagonism and Part Three addresses doctrinal and communal issues of the third century The book will pique readers interest and provide them with a deeper appreciation for the religious identity of early Christians in the Roman Empire what they believed and how they lived Part One Christianity in the Year 100 1 Christians Jews and Romans in the First Century 2 New Way of Life Didache and the Epistle of Barnabas 3 Clement of Rome and the Church of Corinth 4 Ignatius of Antioch and True Christianity 5 Worship and Church Order in the Year 100 Part Two Christianity in a Hostile World 100 250 6 Celsus a Critic of Christianity 7 Justin Martyr a Defender of Christianity 8 The Persecution of Christians 9 The Martyrdom of Perpetua and Felicity 10 Cyprian of Carthage and the Unity of the Church Part Three Faith and Practice in the Third Century 11 Reading the Bible with Early Christians 12 Irenaeus of Lyons and True Christianity 13 Tertullian of Carthage and True Christianity 14 Prayer and the Spiritual Life of Early Christians 15 Eusebius of Caesarea After Two Hundred Years

Christianity and the Roman Games Richard F. DeVoe, 2003-03-14 Christians to the lions The image of early Christian victims of pagan blood lust in the Roman arenas are as familiar as a catechism to Christians of all ages Dr Richard DeVoe parallels the development of these two great social forces of the Roman Empire Christianity the Roman games which included not only the arena but also the circus and the theatre He questions why Christianity did not have more effect on the Roman games as both institutions grew apace for four centuries He concludes contrary to traditional church history that Christianity did not limit but in fact absorbed and perpetuated the games Why With regard not only to the games but also education the military and the imperial cult Rome was not Christianized Christianity was paganized Christianity and the Roman Games traces this process of paganization from the first through the fifth centuries discovering surprising consequences both for Christianity and subsequent history

Christian and Pagan in the Roman Empire Robert Sider, 2001-09-01 In this volume Robert D Sider undertakes a judicious pruning of the original texts and brings a fresh accessibility to the important writings of Tertullian

Early Christians Adapting to the Roman Empire Niko

Huttunen,2020-03-31 In *Early Christians Adapting to the Roman Empire Mutual Recognition* Niko Huttunen challenges the interpretation of early Christian texts as anti imperial documents He presents examples of the positive relationship between early Christians and the Roman society With the concept of recognition Huttunen describes a situation in which the parties can come to terms with each other without full agreement Huttunen provides examples of non Christian philosophers recognizing early Christians He claims that recognition was a response to Christians who presented themselves as philosophers Huttunen reads Romans 13 as a part of the ancient tradition of the law of the stronger His pioneering study on early Christian soldiers uncovers the practical dimension of recognizing the empire Roman Faith and Christian Faith

Teresa Morgan,2015-05-29 This study investigates why *pistis fides* was so important to early Christians that the concept and praxis dominated the writings of the New Testament It argues that such a study must be interdisciplinary locating emerging Christianities in the social practices and mentalit s of contemporary Judaism and the early Roman empire This can therefore equally be read as a study of the operation of *pistis fides* in the world of the early Roman principate taking one but relatively well attested cult as a case study in how micro societies within that world could treat it distinctively Drawing on recent work in sociology and economics the book traces the varying shapes taken by *pistis fides* in Greek and Roman human and divine human relationships whom or what is represented as easy or difficult to trust or believe in where *pistis fides* is deferred and reified in practices such as oaths and proofs how *pistis fides* is related to fear doubt and scepticism and which foundations of *pistis fides* are treated as more or less secure The book then traces the evolution of representations of human and divine human *pistis* in the Septuagint before turning to *pistis pisteuein* in New Testament writings and their role in the development of early Christologies incorporating a new interpretation of *pistis Christou* and ecclesiologies It argues for the integration of the study of *pistis pisteuein* with that of New Testament ethics It explores the interiority of Graeco Roman and early Christian *pistis fides* Finally it discusses eschatological *pistis* and the shape of the divine human community in the eschatological kingdom *Authority and the Sacred* Peter Brown,1997-08-28 His illuminating analysis of religious change as the art of the possible has a wide relevance for other periods and regions

History of Christianity: Comprising All that Relates to the Progress of the Christian Religion in "The History of the Decline and Fall of the Roman Empire," and A Vindication of Some Passages in the 15th and 16th Chapters Edward Gibbon,1883 **Coming Out Christian in the Roman World**

Douglas Ryan Boin,2015-03-03 The supposed collapse of Roman civilization is still lamented more than 1 500 years later and intertwined with this idea is the notion that a fledgling religion Christianity went from a persecuted fringe movement to an irresistible force that toppled the empire The intolerant zeal of Christians wrote Edward Gibbon swept Rome s old gods away and with them the structures that sustained Roman society Not so argues Douglas Boin Such tales are simply untrue to history and ignore the most important fact of all life in Rome never came to a dramatic stop Instead as Boin shows a small minority movement rose to transform society politically religiously and culturally but it was a

gradual process one that happened in fits and starts over centuries Drawing upon a decade of recent studies in history and archaeology and on his own research Boin opens up a wholly new window onto a period we thought we knew His work is the first to describe how Christians navigated the complex world of social identity in terms of passing and coming out Many Christians lived in a dynamic middle ground Their quiet success as much as the clamor of martyrdom was a powerful agent for change With this insightful approach to the story of Christians in the Roman world Douglas Boin rewrites and rediscovers the fascinating early history of a world faith *Christianity and the Roman Empire from Nero to Theodosius* Paul Allard,2017 Several emperors persecuted the Christians Nero Domitian Marcus Aurelius Sulpicius Decius Valerian and especially Diocletian who unleashed the great prosecution from 303 to 312 Diocletian s Persecution Edict stated that all churches throughout the empire were to be destroyed and all sacred books burned Many Christians lost their social rank and privileges while Christian slaves could not be freed In some places the Christians were tortured beheaded exiled or sent to the beasts But the Church found defenders in the second century apologists such as Justin Martyr Athenagoras Theophilus of Antioch and Tertullian who argued that the persecutions were illegal and unjust Tertullian s statement became axiomatic the blood of the martyrs is the seed of Christians When Constantine converted from sun worship to Christianity in 310 he prepared the ground for the Byzantine state Christianity was recognized as a lawful religion in 313 But much more lay in store for the early Church including the tumultuous years of Emperor Julian who sought to return the empire to the worship of the old gods and initiated repressive measures against Christians Only in 380 did Theodosius I make Christianity the official religion of the Roman empire The history of the persecutions reminds us that the spread of Christianity took place against considerable opposition In our own day Christians face another kind of test in a world that is increasingly secularized Allard s book offers timely reminders of how early Christians maintained their identity as a minority in the midst of official suspicion from back cover **The Christians as the Romans Saw Them** Robert Louis Wilken,2003-01-01 This book offers an engrossing portrayal of the early years of the Christian movement from the perspective of the Romans [Christianity in Ancient Rome](#) Bernard Green,2010-04-15 of the Pope Book Jacket **Christianity and the Roman Empire** William E. Addis,2024-11-07 Christianity and the Roman Empire by William E Addis offers a thorough exploration of the growth and eventual dominance of Christianity within the Roman world Written with scholarly depth the book traces the origins of Christianity its development in the context of the Roman Empire and its transformation from a persecuted sect into the official religion of the state Addis begins by examining the historical and cultural environment of the Roman Empire during the rise of Christianity showing how the political philosophical and religious landscape shaped early Christian thought He discusses the challenges faced by early Christians including state sponsored persecution internal doctrinal disputes and tensions with both Jewish and pagan communities Through this lens readers gain insight into the resilience and adaptability of the early church The narrative progresses through pivotal moments such as the spread of Christian teachings through

missionary work the writings of early Church Fathers and the role of martyrdom in strengthening the faith Addis also highlights the impact of key events including Constantine's conversion and the Edict of Milan which marked the beginning of Christianity's ascent to imperial favor The book delves into the complex relationship between Christian doctrine and Roman governance illustrating how Christianity influenced the moral social and political fabric of the empire Addis reflects on how the alliance between church and state shaped both institutions laying the groundwork for the development of medieval Christendom Christianity and the Roman Empire provides readers with a nuanced understanding of the intersection between faith and power in ancient history For those interested in early Christianity Roman history or the dynamics of religious transformation Addis's work offers a compelling and informative account of a pivotal period in the history of Western civilization
