## **Christians And Evolution:**

*Evolutionary Creation* Denis O. Lamoureux, 2008-06-15 In this provocative book evolutionist and evangelical Christian Denis O Lamoureux proposes an approach to origins that moves beyond the evolution versus creation debate Arguing for an intimate relationship between the Book of God's Words and the Book of God's Works he presents evolutionary creation a position that asserts that the Father Son and Holy Spirit created the universe and life through an ordained and sustained evolutionary process This view of origins affirms intelligent design and the belief that beauty complexity and functionality in nature reflect the mind of God Lamoureux also challenges the popular Christian assumption that the Holy Spirit revealed scientific and historical facts in the opening chapters of the Bible He contends that Scripture features an ancient understanding of origins that functions as a vessel to deliver inerrant and infallible messages of faith Lamoureux shares his personal story and his struggle in coming to terms with evolution and Christianity Like many he lost his boyhood faith at university in classes on evolutionary biology After graduation he experienced a born again conversion and then embraced belief in a literal six day creation Graduate school training at the doctoral level in both theology and biology led him to the conclusion that God created the world through evolution Lamoureux closes with the two most important issues in the origins controversy the pastoral and pedagogical implications How should churches approach this volatile topic And what should Christians teach their children about origins

[Can You Believe in God and Evolution?](#) Dr. Ted Peters, Martinez Hewlett, 2010-10-01 Named a 2007 Book of Distinction by the Sir John Templeton Foundation The special edition of this award winning book celebrates the 200th birthday of Charles Darwin Since even before the publication of Darwin's seminal work on evolution science and religion have often been at odds Even today culture wars continue to rage How can I be faithful to God and fully enjoy the progress of science Who is Charles Darwin and what did he actually say Can you believe in God and evolution Does teaching evolution corrupt our social values How can you connect science and faith Can science be a Christian vocation So how can we interpret the creation story in the Bible Authors Ted Peters and Martinez Hewlett give a balanced discussion of the impact of evolution to help church leaders understand the values at stake They make the convincing case that Christians can connect their faith in God with a scientific understanding of evolution with integrity

**Christians and Evolution** Bob Peters, 2019-07-13 In the April edition 2019 of the magazine Christianity Today I saw charts that gave the percentage of Christians who believe in some form of evolution I was surprised I wrote this book to answer question that I think Christians should ask The book's title is Christians and Evolution The subtitle is Most Christians Think Evolution and Christianity are Compatible What Did Jesus Paul Peter and John Say What Does the Fine tuning of the Universe Say I used the word most because 75% of Christians in the US believe in evolution 58% said God had a role in the evolution and 17% said God had no role I projected the US statistic world wide What did Jesus say and believe We know Jesus believed in the Genesis account of creation because when he was asked about divorce he went to the creation story He

quoted from Genesis 1:27 and said Haven't you read that at the beginning the Creator made them male and female Then he said For this reason a man will leave his father and mother and be united to his wife and the two will become one flesh Therefore what God has joined together let man not separate Matthew 19:4-6 He was quoting from Genesis 2:24 He used that first marriage which was between Adam and Eve as the example that sets precedence for all other marriages It is obvious that Jesus believed in creation He never said anything about evolutionist We also know Jesus believed in the Genesis account of creation because he spoke about Abel Abel was Adam and Eve's second son Jesus mentioned Abel because he was the first martyr He was killed by his older brother Cain So Jesus believed that the first biblical family was made up of Adam and Eve and Cain and Abel Later Seth and more children were born Jesus never said Adam was the first person in the long line of evolution that looked more like a man than a gorilla It is obvious that people who believe in evolution and call themselves Christians are not paying attention to what Jesus thought and taught I would hate to stand before Jesus at the judgment day and have him accuse me and say Bob you unwittingly called me an ignorant liar by saying things that are opposite to what I said What did Paul say Paul said in Romans 5:12 that sin and death entered the world through one man He named Adam twice as that one man He said One man Adam brought condemnation One man Jesus Christ brought justification 5:16 It is obvious that the Apostle Paul believed the Genesis account of creation and the fall of mankind through the sin of Adam and the salvation of mankind through Jesus Christ What did Peter say In 1 Peter 1:19-20 he said Christ was chosen before the creation of the world to redeem us with his precious blood John starts his Gospel with In the beginning just like Genesis 1:1 starts the Bible He said about Jesus Christ Through him all things were made without him nothing was made 1:3 So John believes in creation He believes Jesus Christ was the Creator Does he say anything about evolution No I think evolution would have been a very strange concept to him Nowhere in the Bible is evolution mentioned Evolutionist make wild guesses using millions and billions of years Creationist have the Bible It has genealogies going back to Adam so we know where we came from Genesis 5 gives the names of the fathers and how old the fathers were when the sons were born If we add up those dates we know that it was 1,658 years from the creation of Adam to the flood in Noah's time In Genesis 11 we have another genealogy with dates If we add those dates we get 260 years The total years from the creation of Adam to the birth of Abraham is 1,918 years We have a written account of where and when we started I wrote about the fine tuning of the universe There are at least 200 places where the Universe is fine tuned The fine tuning indicates a designer God

Is Evolution Compatible with Christianity? Christopher Gieschen, 2019-09-30 All of these statements are false Christians are science deniers when it comes to evolution Real science actually lines up more with evolution than creation as found in Genesis Fossils are evidence for evolution The Genesis account is fully compatible with evolution These questions need answers What exactly is the difference between evolution right and evolution wrong Is it possible to bend Genesis to fit evolution How can one defend belief in a six day creation from the onslaughts of the evolutionists How about any questions

you have This book is a must for any Christian about to enter a public high school or university Accepting evolution as true is the basis for three of the ten reasons Christians give up saving faith It is time for you to arm yourself with the truth and stand your ground logically philosophically scientifically and most important biblically Ready Let s go     **Christianity in Evolution** Jack Mahoney,2011-08-01 Evolution has provided a new understanding of reality with revolutionary consequences for Christianity In an evolutionary perspective the incarnation involved God entering the evolving human species to help it imitate the trinitarian altruism in whose image it was created and counter its tendency to self absorption Primarily however the evolutionary achievement of Jesus was to confront and overcome death in an act of cosmic significance ushering humanity into the culminating stage of its evolutionary destiny the full sharing of God s inner life Previously such doctrines as original sin the fall sacrifice and atonement stemmed from viewing death as the penalty for sin and are shown not only to have serious difficulties in themselves but also to emerge from a Jewish culture preoccupied with sin and sacrifice that could not otherwise account for death The death of Jesus on the cross is now seen as saving humanity not from sin but from individual extinction and meaninglessness Death is now seen as a normal process that affect all living things and the religious doctrines connected with explaining it in humans are no longer required or justified Similar evolutionary implications are explored affecting other subjects of Christian belief including the Church the Eucharist priesthood and moral behavior

**Christians and Evolution** R J Berry,2014-11-19 The debate surrounding creation and evolution divides Christians particularly evangelicals It has been a stumbling block for young Christians and a point of contention for the new Atheists Professor R J Berry assembles a wide range of distinguished contributors all convinced committed and orthodox Christian believers each of whom has undertaken a conceptual journey based on sound science and careful theology from a creationist position to one in which God s creation and the processes of evolution are properly and credibly integrated Christians and Evolution is a luminous volume that offers a pathway for doubters sceptics and conservative Christians to embrace the overall scientific consensus of the evolutionary approach while holding solidly and without reservation to the doctrines of God s creation and God s omnipotence This text is a must read for anyone interested in the creation v evolution debate

Three Views on Creation and Evolution Zondervan,2010-06-01 For Christians the issues raised by the different views on creation and evolution are challenging Can a young earth be reconciled with a universe that appears to be billions of years old Does scientific evidence point to a God who designed the universe and life in all its complexity Three Views on Creation and Evolution deals with these and similar concerns as it looks at three dominant schools of Christian thought Proponents of young earth creationism old earth creationism and theistic evolution each present their different views tell why the controversy is important and describe the interplay between their understandings of science and theology Each view is critiqued by various scholars and the entire discussion is summarized by Phillip E Johnson and Richard H Bube The Counterpoints series provides a forum for comparison and critique of different views on issues important to Christians

Saving Darwin Karl Giberson, 2009-10-06 The origin of life on Earth has always been a topic for debate in America Creationism and intelligent design are usually seen as the province of the religious while evolution belongs to the scientists and secular thinkers But is it possible to be a Christian and still support the idea of evolution Scientist Karl Giberson thinks so Raised to believe in creationism he eventually abandoned that doctrine while still embracing Christianity *Saving Darwin* explores the history of the controversy that swirls around the theory of evolution from Darwin's groundbreaking book to court battles of today and shows why and how it is possible to believe in God and evolution at the same time Karl Giberson runs the Forum on Faith and Science at Gordon College and has been on the faculty of Eastern Nazarene College since 1984 He was the founding editor of *Science* and an empathetic comprehensible account of how the world looks if you believe in scientific creationism as he once did *Washington Post* *I Love Jesus & I Accept Evolution* Denis O. Lamoureux, 2009-03-04 In this thought provoking book born again Christian Denis O Lamoureux argues that the God of the Bible created the universe and life through evolution an ordained sustained and design reflecting natural process In other words evolution is not the result of blind chance and our creation is not a mistake Lamoureux challenges the popular assumption that God disclosed scientific facts in the opening chapters of Scripture thousands of years before their discovery by modern science He contends that in the same way the Lord meets us wherever we happen to be in our lives the Holy Spirit came down to the level of the inspired biblical writers and used their ancient understanding of origins in order to reveal inerrant life changing Messages of Faith Lamoureux also shares his personal story and struggle in coming to terms with evolution and Christianity

*How I Changed My Mind About Evolution* Kathryn Applegate, 2016-07-15 Over two dozen Christian leaders describe how they changed their minds about evolution Perhaps no topic appears as potentially threatening to evangelicals as evolution The very idea seems to exclude God from the creation the book of Genesis celebrates Yet many evangelicals have come to accept the conclusions of science while still holding to a vigorous belief in God and the Bible How did they make this journey How did they come to embrace both evolution and faith Here are stories from a community of people who love Jesus and honor the authority of the Bible but who also agree with what science says about the cosmos our planet and the life that so abundantly fills it Among the contributors are Scientists such as Francis Collins Deborah Haarsma Denis Lamoureux Theologians and philosophers such as James K A Smith Amos Yong Oliver Crisp Biblical scholars such as N T Wright Scot McKnight Tremper Longman III Pastors such as John Ortberg Ken Fong Laura Truax *Did God Use Evolution?* Dr. Werner Gitt, 2006-09-01 Drawing from a variety of topics biology biblical chronology and the origin of human language and showing their relation to one another in solving this question author Werner Gitt reveals that evolution is not only bad science it also

violates Scripture Written for the layman but with a scientific slant this compelling book devastates Darwinian arguments for the origin of our universe and planet In helping Christians answer attacks on their faith Gitt addresses relevant subjects such as The origin of man The origin of human language Human behavior The origin and future of the universe Christianity and Evolution Pierre Teilhard de Chardin,2002-11-18 The author of The Phenomenon of Man reconciles passionate faith with the rigor of scientific thinking With his unique background as a geologist paleontologist and Jesuit priest Pierre Teilhard de Chardin was a powerful exponent of the view that scientific theories could comfortably coexist with religious faith To this day his ideas provoke passionate debates in communities that view science and faith as necessarily separate ideologies In this collection of nineteen essays Teilhard seeks to illuminate a middle ground between science and religion that he felt both disciplines could accept He explores the Fall and original sin the possibility of life on other planets and the role that God may have played in the process of human evolution successfully challenging contemporary theologians to rethink their views of the universe and its creation Like other great visionary poets Blake Hopkins Yeats Teilhard engages the reader both intellectually and sensually The Washington Post Book World An excellent blend of theological speculation with practical or ascetical application Catholic Telegraph **Making Sense of Evolution** John F. Haught,2010-01-01 Haught offers a provocative take on how reconciliation between evolution and Christian theology might begin and questions whether the two concepts must be mutually exclusive The Prism and the Rainbow Joel W. Martin,2010-06-01 God or Darwin It is one of the most contentious conflicts of our time It is also completely unnecessary according to Joel W Martin an evolutionary biologist and ordained elder in the Presbyterian Church USA In this slim but powerful book Martin argues that it is not contradictory to be a practicing faithful Christian who accepts the science of evolution Martin finds that much of the controversy in the United States over evolution is manufactured and predicated on a complete and sometimes willful misapprehension of basic science Science and religion he says serve different purposes and each seeks to answer questions that the other need never address He believes that many of the polarizing debates about evolution distract from the deeper lessons of Christianity and that literal fundamentalist readings of the Bible require the faithful to reject not just evolution but many of science s greatest discoveries Just as the scientific explanation of rainbows is not meant to refute the biblical rainbow story of God s promise evolutionary theory is not a ploy to disavow the divine Indeed Martin shows that the majority of Christians worldwide accept the theory of evolution He urges his fellow Christians to refuse to participate in the intellectually stifling debate over evolution and creationism intelligent design **The Evolution of Christianity** Lyman Abbott,1892 **Christianity, Evolution and the Environment** Barry John Richardson,2001 Written to be accessible to a broad cross section of people especially those without backgrounds in theology or science this book provides an introduction to the relationship between Christianity and science It provides the framework for Christians to reconcile their faith with the reality of evolution *Creation V. Evolution* Daniel A. Biddle,2015-12-20 This book is essential for Christians attending

public high school or college especially before they take biology or earth science classes Written by leading Creation Scientists this book provides solid answers to these critical questions that will help Christian high school and college students solidify their faith and grow roots to withstand the evolution based teaching in today s schools The topics covered include Can We Trust the Bible Did Noah s Flood Really Happen The Age of the Earth Dating Methods and Evolution Do Fossils Show Evolution Natural Selection Darwin s Finches Whale Evolution Human Evolution What about the Race Groups Chimp Human DNA Similarities Vestigial Structures      *Creation and Evolution* Alan Hayward,2005-01-26 Even non Christian scientists are attacking the traditional evolutionary theory still taught in many schools as fact In *Creation and Evolution* British physicist Dr Alan Hayward draws evidence solely from these non Christian researchers to discredit gradual evolution and Darwin s mechanism of natural selection Hayward also examines in detail young earth theories flood geology and geological testimony to an ancient earth In the end he suggests a surprising interpretation of Genesis that argues for both a historical Adam and creation over eons of time Bowing neither to theistic evolution nor scientific creationism Hayward writes from the perspective of a Christian physicist committed both to a high view of Scripture and to rigorous honesty with scientific data      **Should Christians Embrace Evolution?** Norman Cummings Nevin,2009 This title offers valuable perspectives on a contentious and complex area of debate for non specialists prepared to weigh the information seek clarification and draw their own conclusion

## Christians And Evolution Introduction

In today's digital age, the availability of Christians And Evolution books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Christians And Evolution books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Christians And Evolution books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Christians And Evolution versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Christians And Evolution books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Christians And Evolution books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Christians And Evolution books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Christians And Evolution books and manuals for download have transformed the way we access information. They provide a

cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Christians And Evolution books and manuals for download and embark on your journey of knowledge?
