Christopher Benninger Architecture Modern:

Christopher Benninger Rosa Maria Falvo, Ramprasad Akkiseti, 2015 American born and raised Christopher Benninger is one of India's most highly decorated architects. His career spans four decades in prominent roles as an institution builder, professor, United Nations and World Bank consultant, advising many governments, pioneering expert in social planning and low cost housing for the less privileged in Jamnagar, Chennai, Hyderabad and several other cities and master architect designing many modern institutions nurturing development in India. His award-winning projects include the Mahindra United World College of India, Samundra Institute of Maritime Studies, YMCA Camp Site at Nilshi, Suzlon One Earth and his own studio residence India House in Pune. Graduating in architecture from Harvard University where he later taught, Benninger completed further studies in urban planning at MIT and settled in India in 1971, founding the School of Planning in Ahmedabad where he remains an active distinguished professor. His name appears alongside Geoffrey Bawa, Charles Correa and Balkrishna Doshi as one of the few recipients of the Great Master Architect Award in India presented every three years.

Letters to a Young Architect Christopher Benninger, 2013-11-02 For the first time this classic is available in a richly illustrated edition. It is a must-read for India freaks and serious architects everywhere. The Second Edition of India's only architectural book ever to rank in the Top Ten Best Selling Non-fiction Books, entitled *Letters to a Young Architect*, is now appearing with one hundred and thirty-two colour and black and white illustrations. An all-inclusive Index makes it easy for readers to locate people, places and ideas they wish to study. The author, Christopher Charles Benninger, is respected as one of India's leading architectural theorists and practitioners. He has won the Great Master's Award, the Architect of the Decade Award, the Indian Institute of Architects Award, the American Institute of Architects Architectural Record Business Week Award and many more. This book was awarded the Best Architectural Book of 2012 by Archidesign. The Chinese translation was released in January 2013 and the Gujarati version in November 2013. The book's narrative is a poetic and sensitive memoir of a stranger's adventures in Asia and his transformation in India. The book debates concerns about architectural theory, design and contemporary urban planning. Through the medium of written discourses and talks presented over the past decade, a lucid collection of essays emerges that testify the commonality of mankind's condition. This is a collection of autobiographical narratives and ideas reflecting a journey of the spirit from America and Europe to India and the philosophical considerations that matured from these experiences. His travels are not only stories of the dusty roads he traveled on but also of the passions and emotions of those he met along the way. *Letters to a Young Architect* reflects on the role and direction of architecture in framing a new man and a new society in the new millennium. Benninger notes his encounters with gurus like Kevin Lynch, Charles and Ray Eames, Jose Luis Sert, Walter Gropius, Arnold Toynbee and Buckminster Fuller and the manner in which their personal passion for humanity shaped the lives of others. Benninger is a strong believer in tradition, in gurus and in students and in a lineage of values, ideals, principles and of practices which have

been matured from generation to generation He is concerned with the education of architects the nature of architecture itself and the role of urbanism and planning in the creation of a new society The role of Indian masters like Balkrishna Doshi who guided him in his search is a touching tribute to the Indian Guru Shishya tradition Christopher Benninger prepared the Capital Plan for Thimphu Bhutan for six cities in Sri Lanka and many towns and cities across Bhutan India and Sri Lanka His well known architectural works include the Suzlon One Earth the United World College of India the Samundra Institute of Maritime Studies the Indian Institute of Management at Kolkata the Centre for Development Studies and Activities in Pune and the Kirloskar Institute of Advanced management Studies in Pune He founded the School of Planning at CEPT University in Ahmedabad India after a stint teaching at the Graduate School of Design at Harvard University where he studied architecture

Sustainable Societies: Transition from theories to practice Sethi, Mahendra, 2022-01-17 The national economic situation rapidly changing societies increasing environment pollution amidst global warming around us are some of the most burning topics in day to day discussions news and scholarly discourses What we see are only the consequences of protracted actions policies and decisions The issues associated with these phenomena are highly complex that challenge a direct interpretation of their root causations indications results and long term impacts For instance is the issue of managing natural resources for industry business operations within a country an economic problem Or is it an ecological one Or rather a social one Could it be resolved with theories and techniques of either of these fields Well the issue and its redressal requires a combination of all the three disciplines And yet actions to integrate all of these fields have typically by passed one or more The framework that has over the years most commonly explained the convergence of different spheres of disciplinary knowledge has been sustainability At the same time its pursuit in practice the dominant public perception political agendas and the mainstream media remains elusive In absence of a critical theory on sustainable societies the contemporary development model is misinformed by vague notions of greening green growth eco development ecotourism smart cities etc largely steered by corporates and vested business groups The contemporary societies exist and continue to develop without genuine knowledge about sustainability that lies fragmented in its contributing disciplinary streams This book unfolds the inherent dilemmas contradictions and paradoxes within the current sustainability paradigm to form a rather nuanced and inside view of what constitutes sustainability and how it could be realized with socio technical institutional policy and management solutions In the process the research comprehensively reviews about a hundred environmental social and economic theories to deliberate on the way forward Considering that sustainability is a politico economic and socio cultural challenge the transitions need to be culturally diverse and inter generational requiring infusion of fresh values messaging and leadership while conserving traditional knowledge prevailing institutions The book culminates with a transition architecture bearing policy recommendations for governing without governmentality with plausible regulatory instruments capacitating mechanisms planning and voluntary measures that can be implemented in practice Die nationale

Housing for All A.K. Jain, This book titled Housing for All Design Construction and Management by A K Jain is a comprehensive assessment of the housing situation in India which not only traces the path taken by governments so far but also outlines a roadmap for the future The book begins with an overview of the housing scenario in India It discusses various housing programmes and draws a distinction between affordable housing and adequate housing The book also draws particular attention to housing issues of special groups such as the elderly disabled homeless migrant and transit workers students and single women There is also a discussion on the issue of social and physical infrastructure The book notes that housing units alone do not constitute housing but infrastructure plays a critical role in the occupancy of housing The question of reducing the cost of housing has been vexatious for long Jain deals with this issue in detail and suggests various low cost technologies and house building systems for making housing more affordable

Another issue is that of rental housing Jain suggests that giving a boost to rental housing through a slew of measures can go a long way in making housing more accessible and bring vacant housing into the market
