Chroniques Des Temps Consensuels:

Chroniques des temps consensuels Jacques Rancière, 2017-11-02 Le consensus n'est pas la paix des esprits et des corps Nouveau racisme et purifications ethniques guerres humanitaires et guerre la terreur sont au cœur des temps consensuels tout comme les fictions cinématographiques de la guerre totale et du mal radical ou les politiques autour du génocide nazi Le consensus est une carte des opérations de guerre une topographie du visible du pensable et du possible qui a une fin bien précise montrer qu'il n'y a qu'une seule réalité laquelle nous sommes tenus de consentir Ce qui s'oppose cette entreprise s'appelle simplement la politique Ces chroniques cherchent rouvrir un espace qui la rend pensable **Reading**

Rancière Paul Bowman, Richard Stamp, 2011-06-02 Over the past 40 years Jacques Rancière's work has defined itself through a remarkable set of philosophical differences in relation to other key figures working in the fields of politics philosophy and aesthetics There have been significant philosophical theoretical and aesthetic disagreements with influential figures in contemporary thought including Althusser Bourdieu Derrida Agamben Deleuze Foucault Habermas and Badiou Through these differences Rancière has emerged as one of the world's leading contemporary theorists Whilst Rancière has long been a well known force in francophone contexts the translation of his works into English has generated a lot of excitement and catapulted him to the forefront of attention in several putatively distinct but interconnected fields philosophy politics critical theory aesthetics and film Reading Rancière intervenes in this ongoing discourse by assembling an eminent collection of critical assessments of the significance of Rancière's diverse impact and growing influence This book offers a sustained critically balanced response to the work of this major contemporary theorist as well as a new interview and a key text published here for the first time The Political Thought of Jacques Rancière Todd May, 2008 This book examines the

political perspective of French thinker and historian Jacques Rancière Rancière argues that a democratic politics emerges out of people's acting under the presupposition of their own equality with those better situated in the social hierarchy Todd May examines and extends this presupposition offering a normative framework for understanding it placing it in the current political context and showing how it challenges traditional political philosophy and opens up neglected political paths He demonstrates that the presupposition of equality orients political action around those who act on their own behalf and those who act in solidarity with them rather than as with the political theories of John Rawls Robert Nozick and Amartya Sen those who distribute the social goods As May argues Rancière's view offers both hope and perspective for those who seek to think about and engage in progressive political action Jacques Rancière Gabriel Rockhill, Philip Watts, 2009-08-21 Collection

that examines the work of cultural and political theorist Jacques Rancière **Beyond the Philosophy of the Subject** Michael A. Peters, Marek Tesar, 2015-11-19 This first volume focuses on a collection of texts from the latter twenty years of Educational Philosophy and Theory selected for their critical status as turning points or important awakenings in post structural theory In the last twenty years the applications of the postmodern and poststructuralist perspectives have become

less mono focused less narrowly concerned with technical questions and also less interested in epistemology and more interested in ethics This book covers questions of genealogy ontology the body and the institution giving examples of theoretical applications of post structural theory that testify to the generative and endlessly applicable potential of this work to different fields and avenues of thought While informed by Foucault s thinking of the political subjugation of docile bodies to individuals as self determining beings the chapters in this book culminate in amalgamations of different schools of educational philosophy which explore poststructuralist approaches to education Beyond the Philosophy of the Subject will be key reading for academics researchers and postgraduate students in the fields of philosophy of education philosophy education educational theory post structural theory the policy and politics of education and the pedagogy of education

Re-thinking Ressentiment Jeanne Riou,Mary Gallagher,2016-05-15 The charge of Ressentiment can in today s world less from traditionally conservative quarters than from the neo positivist discourses of particular forms of liberalism be used to undermine the argumentative credibility of political opponents dissidents and those who call for greater justice The essays in this volume draw on the broad spectrum of cultural discourse on Ressentiment both in historical and contemporary contexts Starting with its conceptual genesis the essays also show contemporary nuances of Ressentiment as well as its influence on literary and philosophical discourse in the 20th century

Victor Burgin Victor Burgin,2008 A compendium of the history of contemporary American art and a living testimony of a sincere and active protagonist Victor Burgin an artist and sophisticated theoretician of the image both still and in movement was born in Sheffield England in 1941 He established himself on the international art scene in the late sixties as one of the fathers of Conceptual Art working both with the photographic medium and with moving images in his films His work draws its inspiration from and is influenced by great thinkers and philosophers such as Karl Marx Sigmund Freud Michel Foucault and Roland Barthes Over the past 30 years Victor Burgin has become both a highly influential artist and a renowned theorist

of the still and moving image His writings on general issues such as photographic psychoanalytic and cultural theory are noted for their lucidity compactness and reason In contrast the photographs and videos that Burgin creates as an image maker are richly paradoxical and constitute an inquiry into the structure of meaning in contemporary society This book is different from Victor Burgin s previous publications which are either monographs of his visual work with essays by other writers or collections of his theoretical essays Although Burgin is known equally as an artist and as a theorist there has so far been no book in which Burgin turns his critical attention to his own artistic production The proposed monograph will fill this absence and will appeal to a wide audience interested in photography film and media The Cinematic David
