**America in the Age of Trump** Douglas E. Schoen, Jessica Tarlov, 2017-07-04 America in the Age of Trump is a bracing essential look at the failure of a great nation to meet the needs of its people and the challenges of the age and the resulting collapse of public trust in government as well as a pervasive crisis of national values from broken families to a loss of faith in the American idea itself This crisis of values occurs just as the country faces an unprecedented array of fiscal economic social and national security challenges out of control federal spending frighteningly large deficits massive gaps of income and opportunity cultural division and a dangerous world in which American power seems increasingly incidental In America in the Age of Trump Douglas E Schoen and Jessica Tarlov offer a definitive and unique assessment of a nation in turmoil looking beneath well known problems to identify underlying yet poorly understood causes Readers will confront the crises one by one of trust values and governance of education economic opportunity and fiscal solvency of national security domestic tranquility and race relations America in the Age of Trump gathers in one place a clear and comprehensive evaluation of the fundamental issues confronting the American future while offering bold fresh approaches to meeting these challenges Other books have described the specter of American decline but none has been so comprehensive in its diagnosis or forward looking and non ideological in its remedies explaining how we might yet overcome national self doubt to reclaim our traditional optimism reassert our place in the world and secure a prosperous future for our citizens *U-Turn* David Barton, George Barna, 2014-10-21 Restoring America to the Strength of its Roots The United States became a unique prosperous and admired nation because of its faith in God and the willingness of the people to abide by God s standards and principles Over time however the people s urge to glorify self rather than God has seriously eroded the strength and potential of the nation U Turn examines current cultural trends and historical patterns to reveal that America cannot sustain its strength if it remains on its current path Combining current research with the authors trademark insight and analysis the book gives readers a unique view of the moral and spiritual condition of Americans and provides specific insights into how we can turn our nation around by focusing on The restoration of the family The restoration of the Christian Church The future activity of our government Stating the Family Julie Novkov, Carol Nackenoff, 2020-05-07 Glance at a political party s platform catch a politician s speech sample the news and you will find the family not as a mere group of people living together in the private sphere but as a contentious entity at the center of political disputes and policy debates over everything from marriage equality and gender identity to immigration and welfare reform The key role of the family in politics and public policy so often relegated to the outer margins of political science and theory comes in for long overdue consideration in this volume Bringing together political scientists and legal scholars of wide ranging interests and perspectives Stating the Family explores the role of the family in American political development as a focus of political struggle a place where policy happens a means of distributing governmental goods and a way of relating individuals to the

state and to each other in legal terms While the authors gathered here examine important policy questions that relate to the family including immigration welfare citizenship partisanship and ideology they pay particular attention to changes in family structures and responsibilities in light of the rise of neoliberalism Illustrated with case studies some contemporary some historical their essays provide individual takes on different links between family and politics creating a nuanced conversation on this complex topic The result is a multifaceted view of the family s place in the development of American political institutions and a unique understanding of the work that family does to structure politics and that politics does to structure families
