

Setting Steps for TV Set

Manual Setting

1. Find out the 3-digit code for the TV that you desire to control from the "code list". In case there are several groups of codes available, please use the first group at first.
2. Press and hold the "Setting" button at first, then press the "TV" button. Release both buttons after the indicator light illuminates, indicating the status of code input.
3. Input sequentially the 3-digit code that you have obtained. The indicator light flashes once when one digit is input. After the input of the code, the indicator light extinguishes.

Note: In case the indicator light keeps illuminating after two flashes, you only need to input the correct 3-digit code and do not repeat Step 2, otherwise a resetting started from Step 2 shall commence.

4. When the indicator light extinguishes, the setting ends. Please test the remote control can work normally or not. If not, reset it from step 1 and try next 3-digit code.

Press and hold the "Setting" button, then press the "TV" button.

Input the 3-digit code.

Search For the Correct Code

In case that your TV cannot be remotely controlled after all the codes available are listed, or in case that your TV is the brand that has no matching code in the "code list", you may try the following steps:

1. Manually switch on the TV that you desire to control. It should be in playing state.
2. Aim the remote controller at the TV. Press and hold the "Setting" button at first, then press the "TV" button. At this time, the indicator light illuminates. Then release both buttons.
3. Press the "Volume Up" button on the remote controller and release it to observe whether the volume indication on the TV is shown. Repeat the operation till the volume indication on the TV is shown, and then press the "Setting" button.

Note: Each press of the "Volume Up" button will lead to one code emission. If the code is identifiable by the TV, the volume of the TV program will change.

4. At this time, the indicator light extinguishes, and the setting ends. You can check other functional buttons, for example, "Power" to ensure that they work well.

5. In case other buttons fail to work properly, a resetting started from Step 2 shall commence till the correct code is found.

Note: After each press of "Volume Up" button, the code number of the remote controller will add 1 and the "Volume Up" code under the code will be emitted once. In case a normal remote control still cannot be obtained, please refer to the "Problem Solving".
