Dr. Ranjit Kumar Singh, IAS (AIR-49)

Eastern Cape Basic Education 2014 District Question Papers:

The Politics and Governance of Basic Education Brian Levy, Robert Cameron, Ursula Hoadley, Vinothan Naidoo, 2018-09-05

This is an open access title available under the terms of a CC BY NC ND 4.0 International licence. It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations. All over the world economic inclusion has risen to the top of the development discourse. A well performing education system is central to achieving inclusive development but the challenge of improving educational outcomes has proven to be unexpectedly difficult. Access to education has increased but quality remains low with weaknesses in governance comprising an important part of the explanation. The Politics and Governance of Basic Education explores the balance between hierarchical and horizontal institutional arrangements for the public provision of basic education. Using the vivid example of South Africa, a country that had ambitious goals at the outset of its transition from apartheid to democracy, it explores how the interaction of politics and institutions affects educational outcomes. By examining lessons learned from how South Africa failed to achieve many of its goals, it constructs an innovative alternative strategy for making process combining practical steps to achieve incremental gains to re-orient the system towards learning.

Handbook of Research on Creating Spaces for African Epistemologies in the Inclusive Education Discourse Maguvhe, Mbulaheni Obert, Masuku, Mfundo Mandla, 2021-12-31

Students with disabilities who are not able to perform to the best of their abilities often find themselves learning in inaccessible environments and subjected to increased stress levels due to the haphazard provisioning of education characterized by physical, communicative and unsuitable teaching and learning approaches. Very often this is a result of various shortcomings including unfair assessment practices. Misconceptions and a lack of knowledge with regard to the implementation of inclusive education detract from the successful admission of students with disabilities and their retention and active participation. The Handbook of Research on Creating Spaces for African Epistemologies in the Inclusive Education Discourse explores the concept of inclusive education in an African context. It advocates for the monitoring and evaluation of inclusive education and proposes interventions where reasonable accommodation or lack of accessibility is a reason for students with disabilities to not benefit from this system. Covering topics such as barriers to learning, rural schools and student support, this major reference work is an essential resource for administrators, advocates for students with disabilities, policymakers, researchers, pre-service teachers, educators, academicians and students.

Strengthening Child and Adolescent Mental Health (CAMH) Services and Systems in Lower-and-Middle-Income Countries (LMICs) Manasi Kumar,Amritha Bhat,Shekhar Saxena,Jurgen Unutzer,2021-03-12

Is Education Neglected in Natural Resources-Rich Countries? An Intergenerational Approach in Africa Jean-Marc B. Atsebi,Rasmané Ouedraogo,Regina S. Séri,2022-07-29 The literature on the effects of natural resources on education is mixed and inconclusive In this paper we adopt an innovative approach by exploring the effects of mineral discoveries and productions on intergenerational educational mobility IM linking parents to the children education levels for more than 14 million individuals across 28 African countries and 2 890 districts We find that mineral discoveries and productions positively affect educational IM for primary education in Africa for individuals exposed to the mineral sites and living in districts with discoveries Specifically the probability of upward primary IM increases by 2 7 percentage points pp following mineral discoveries and 6 7 pp following mineral productions Downward primary IM decreases by 1 2 pp following both mineral discoveries and productions These positive effects are increasing for individuals born later after discoveries and productions for males and individuals living in the urban area However no significant effects are found for secondary and tertiary educational IM Finally we explore the income and returns to education channels through which mineral discoveries and productions affect educational IM
