Eastern Cape Time Table For Grade 11:

Language and Sustainable Development Lisa J. McEntee-Atalianis, Humphrey Tonkin, 2023-03-03 This book addresses the importance of language in matters of sustainability and incorporating such concerns in implementing the UN Sustainable Development Goals (SDGs). Sustainable language policy must aim to include all groups including language minorities and marginalized populations such as refugees and aid recipients in conditions that allow for their inclusion in making and implementing policy. The book brings together nine studies covering such topics as language and digital resources, sustainable and inclusive multilingual education, national language policy, and language in peacekeeping operations. A final chapter addresses the crucial intersection between sociolinguistics and economics and the implications of this for development and the SDGs.

Challenges and Issues facing the Education System in South Africa Wilfred Legotlo, 2014-05-05 The quality of education is pivotal for the production of human capital and this cannot be compromised by failing to refocus on the quality of education offered in schools. The inputs in the system such as trained and motivated teachers, buildings, and classrooms, including sanitation, clean water, instructional material such as textbooks, as well as strong leadership with vision to steer the winds of change, are important in providing the desired outcomes. The chapters in this volume are broadly divided into three subsections as follows: learner-related issues, farm and rural schools, poverty and schooling, school violence, and students' rights; teacher-related issues, teacher morale and motivation, teachers for all schools, management needs of school principals, and administrative policy-related issues; inclusive education and school-community relations. The social demand for better schools, effective principals, qualified and committed teachers, and better opportunities for all, place a huge challenge to provinces and the state to protect the rights of all citizens. This volume sets out the challenges facing the education system in South Africa, such as poor school infrastructure, poor learning conditions, and a lack of learning materials, and provides recommendations on how some of these can be overcome.
