

FRENCH REVOLUTION ESSENTIALS

Causes:

- **Weak leaders** (Louis XVI doesn't live up to his ancestors and they hate his non-French wife)
- **Economic Problems** (people are starving, famine, heavy taxes)
- **The Estate System** (inequality of social classes 3rd estate 98% of population, paying all taxes)

***Inspired by Enlightenment ideas & the American Revolution.*

Start of the Revolution = Storming of the Bastille, July 14, 1789

RÉPUBLIQUE FRANÇAISE

Reign of Terror

- period of radicals executing anyone opposed to the revolution
- led by Maximilien Robespierre
- starts with the beheading of King Louis XVI (and then his wife Marie Antionette)

Off with
their
Heads!

Napoléon Bonaparte leads a coup d'état to overthrow the new republic, ended the French Revolution. He becomes military dictator (like Cromwell), but people like him even though he is an absolute ruler because he brings an END to the chaos of the French Revolution. **PLUS** he did several good things like: freedom of religion, expanded education (public schools), built churches, improved tax system, established the Napoleonic Code (equality for all citizens under the law). He also fought wars with most of Europe, lost when tried to take Russia. Finally defeated and was exiled.

The French Revolution Peter Davies, 2012-12-01 Handy introduction to one of the most significant and studied events in world history Blending narrative with analysis Peter Davies explores a time of obscene opulence mass starvation and ground breaking ideals where the streets of Paris ran red with blood and the numbers requiring execution precipitated the invention of the guillotine Davies brings the subject up to date by considering the legacy of the revolution and how it continues to resonate in today's France *French Revolution Publishing Historical Figures*, 2020-03-07 **The French Revolution** A Comprehensive Guide to the French Revolution Including a Complete History of the Events

The French Revolution Noah Shusterman, 2013-10-15 The French Revolution was one of the greatest events in world history filled with remarkable characters and dramatic events From its beginning in 1789 to the Reign of Terror in 1793-94 and through the ups and downs of the Directory era that followed the Revolution showed humanity at its optimistic best and its violent worst it transformed the lives of all who experienced it The French Revolution Faith Desire and Politics offers a fresh treatment of this perennially popular and hugely significant topic introducing a bold interpretation of the Revolution that highlights the key role that religion and sexuality played in determining the shape of the Revolution These were issues that occupied the minds and helped shape the actions of women and men from the pornographic pamphlets about queen Marie Antoinette to the puritanical morality of revolutionary leader Maximilien Robespierre from the revolutionary catechisms that children learned and to the anathemas hurled on the Revolution from clandestine priests in the countryside The people who lived through the French Revolution were surrounded by messages about gender sex religion and faith concerns which did not exist outside of the events of the Revolution This book is an essential resource for students of the French Revolution History of Catholicism and Women and Gender

The Aftermath of the French Revolution James R. Arnold, 2008-09-01 Examines the causes events and consequences of the French Revolution in the late eighteenth century

The French Revolution Florin Aftalion, 1990-03-22 The economic history of revolutionary France is still a neglected area in studies of the Revolution of 1789 Whilst some attention has been given to the condition of the peasants the urban working classes and the financial crisis of the Ancien Régime there has been a general tendency to regard economic factors as external and somewhat peripheral to the truly political nature of the Revolution This book is designed to redress the balance providing a clear accessible and thought provoking guide to the economic background to the French Revolution Professor Aftalion analyses the policies followed by successive revolutionary assemblies examining in detail taxation the confiscation of church property the assignats and the siege economy of the Terror He shows how decisions taken in 1789 by the Constituent Assembly inevitably led to a deepening financial and economic crisis and to increasingly radical and disastrous policies The study is important also for its exposure of many of the economic fallacies propounded both at the time by many Frenchmen and later by many modern historians
