Caring for Infants and Toddlers Diane T. Dodge,Amy L. Dombro,Derry G. Koralek,1991-01-01 Spotlight on Infants and Toddlers Derry Gosselin Koralek,Linda Groves Gillespie,2011 Practical ways to support infants and toddlers A Trainer's Guide to Caring for Preschool Children Diane Trister Dodge,1990 Written for individuals responsible for overseeing the staff training of preschool teachers this guide consists of four sections The first enables trainers to determine whether the training program which is based on the 13 Child Development Associate CDA Competency Standards meets the needs of their program The second provides an overview of the trainer s role in guiding each teacher through the course of self instructional learning activities and suggests ways to extend learning The third includes knowledge and competency assessments for each module to help trainers determine whether the trainee has understood the course material and has become more competent in working with children The fourth section an appendix provides answer sheets and observation forms for use in the assessment process It also includes forms to help in tracking each teacher s progress and a list of publishers and distributors for resources listed in the training modules RH *Infant/toddler Caregiving* California. Department of Education,1995 This guide explores the contribution of the naturally occurring activities of infants and toddlers to their learning and development Infants and toddlers benefit greatly when they have a caregiver who is sensitive and responsive to their various needs and interests who creates developmentally appropriate environments and who introduces activities that encourage the children to explore freely and be in control of what happens Ideas and insights for caregivers seeking to provide that kind of support are offered in this guide along with a listing of developmentally appropriate and inappropriate practices How to Keep Your Children Safe Yvonne Marie Vissing,2006 Winner of the New

England Sociological Association Sociologist of the Year 2008 Life in contemporary American society requires that children spend considerable time in the care of other people These people include teachers coaches babysitters camp counselors ministers neighbors friends and extended family While most people who work with children do a good job some caregivers fail to adequately care for kids while others actually put them in harm's way Parents may assume that caregivers of all kinds are uniformly evaluated and approved but this is not always the case American society despite a superficial rhetoric of concern for children has not instituted strong national state or local safety nets to protect them And because there is no comprehensive commitment to ensure child safety there is no systematic or even partial oversight of adults charged with their care As a result parents are put in the difficult position of deciding whether caregivers of all kinds are sufficiently skilled and responsible to look after children

How to Keep Your Children Safe is essential reading for any parent concerned about child safety It takes a hard look at the hidden side of children's lives the times when they're in contact with caregivers who aren't doing their jobs properly It provides detailed information on places where children are under the care of others including day care recreational settings religious and civic organizations schools and summer camps Vissing investigates the potential perils of each setting and enumerates ways in which parents can better monitor or take control of their child's safety By writing a realistic assessment of commonplace settings that every parent and child can relate to and offering a road map to child safety Vissing empowers parents to make critical decisions about their children's lives
