Christendom Destroyed Mark Greengrass, 2014-11-28 The latest volume to appear in the Penguin History of Europe Like its companion volumes *Christendom Destroyed* is no breezy survey but a masterly synthesis of depth and breadth The Wall Street Journal The political and religious conflicts of early modern Europe receive high quality treatment from Greengrass an excellent addition to the new Penguin History of Europe Financial Times From peasants to princes no one was untouched by the spiritual and intellectual upheaval of the sixteenth century Martin Luther's challenge to church authority forced Christians to examine their beliefs in ways that shook the foundations of their religion The subsequent divisions fed by dynastic rivalries and military changes fundamentally altered the relations between ruler and ruled Geographical and scientific discoveries challenged the unity of Christendom as a belief community Europe with all its divisions emerged instead as a geographical projection Chronicling these dramatic changes Thomas More Shakespeare Montaigne and Cervantes created works that continue to resonate with us Spanning the years 1517 to 1648 *Christendom Destroyed* is Mark Greengrass's magnum opus a rich tapestry that fosters a deeper understanding of Europe's identity today Europe 1517-1648 Mark Greengrass, 2014 Mark Greengrass's gripping major original account of Europe in an era of tumultuous change SUNDAY TIMES and FINANCIAL TIMES Books of the Year 2014 This latest addition to the landmark Penguin History of Europe series is a fascinating study of 16th and 17th century Europe and the fundamental changes which led to the collapse of Christendom and established the geographical and political frameworks of Western Europe as we know it From peasants to princes no one was untouched by the spiritual and intellectual upheaval of this era Martin Luther's challenge to church authority forced Christians to examine their beliefs in ways that shook the foundations of their religion The subsequent divisions fed by dynastic rivalries and military changes fundamentally altered the relations between ruler and ruled Geographical and scientific discoveries challenged the unity of Christendom as a belief community Europe with all its divisions emerged instead as a geographical projection It was reflected in the mirror of America and refracted by the eclipse of Crusade in ambiguous relationships with the Ottomans and Orthodox Christianity Chronicling these dramatic changes Thomas More Shakespeare Montaigne and Cervantes created works which continue to resonate with us *Christendom Destroyed* is a rich tapestry that fosters a deeper understanding of Europe's identity today The Penguin History of Europe series is one of contemporary publishing's great projects New Statesman *Historical Dictionary of Catholicism* William J. Collinge, 2021-08-15 This work covers the whole history of Catholicism including the periods of Christian history prior to the present divisions into Catholic Orthodox and Protestant but within the earlier periods it focuses on the story line that leads to Catholicism in the Roman Rite and particularly to Roman Catholicism in the United States The *Historical Dictionary of Catholicism* Third Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 500 cross referenced entries on important persons and places as well as themes such as baptism contraception

European Economic Thought Antonio Magliulo, 2022-05-11 A History of European Economic Thought grafts the history of economic thought onto Global History by showing how significant economic ideas have influenced the process of Europe's formation from the very beginning to the present day This work combines two classical stories that until today have followed parallel paths On the one hand there is the political history of Europe which is often limited to a few fleeting references to the ideas of the great economists of the past On the other hand there is the history of economic thought which examines Europe as a whole as a distinct supranational community only with reference to the institutions created after World War II The volume sheds light on the constitutive values of Europe which also stem from a particular economic culture and provides essential reading for students and scholars of the history of economic thought Virtuoso by Nature: The Scientific Worlds

Reformation Theology Matthew Barrett, 2017-03-16 Five hundred years ago the Reformers were defending doctrines such

as justification by faith alone the authority of Scripture and God's grace in salvation come to the point of death Many of these same essential doctrines are still being challenged today and there has never been a more crucial time to hold fast to the enduring truth of Scripture In Reformation Theology Matthew Barrett has brought together a team of expert theologians and historians writing on key doctrines taught and defended by the Reformers centuries ago With contributions from Michael Horton Gerald Bray Michael Reeves Carl Trueman Robert Kolb and many others this volume stands as a manifesto for the church exhorting Christians to learn from our spiritual forebears and hold fast to sound doctrine rooted in the Bible and passed on from generation to generation

Social Relations, Politics, and Power in Early Modern France Barbara B. Diefendorf, 2016-09-01 The study of history is a fundamentally sociable practice with the exchange of ideas taking place in writing over the seminar table and often in informal discussions over food These essays grew out of a web of sociability centered around French historian Robert Descimon and focus on the nexus of social relations politics and power in France as it moved from the age of religious wars into the age of absolutism Using a wide variety of historical approaches and methods these essays offer new insights into the evolving role of early modern elites and the social familial and cultural influences that shaped their values and priorities

In Defense of Civilization Michael R.J. Bonner, 2023-04-04 Will our future imitate our past The purpose of this book is threefold to explain what makes civilization what it is to show what we are in danger of losing in the event of collapse and to point the way toward renewal There is a consensus in the West that something is wrong Many people have the uneasy feeling that the liberal democratic order is in danger and that civilization itself hangs in the balance This feeling could be dismissed as alarmism but the present moment of pandemic political instability and rioting is a startling reminder of the fragility of civilization everywhere And we should never forget that empires and societies have collapsed many times before But history shows that human civilization also has extraordinary powers of recuperation writes Michael R.J. Bonner in this bracing tour de force Drawing on such examples as the revival of Europe after the collapse of the Roman Empire and the ebb and flow of civilization in China despite repeated foreign conquest he shows how humankind's quest for clarity order and beauty the crucial elements of civilization does not necessarily succeed through innovation or a futuristic orientation but by thoughtful examination and imitation of past experience

Legal History Matters Amanda Whiting, Ann O'Connell, 2020-11-03 As a field of study legal history has an unsteady place in Australian law schools yet academic research and writing in the field of legal history and at the intersections of the disciplines of law and history is undergoing something of a renaissance with rich and vibrant new works regularly appearing in specialist journals and scholarly monographs This collection seeks to reinvigorate the study of history within the law school curriculum by showcasing what students of the law can achieve when addressing topics from the use of Magna Carta as history and precedent in sixteenth century England to the political manoeuvres behind the failed impeachment of President Bill Clinton in late twentieth century America they seek to understand legal processes and

institutions historically The volume comprises outstanding legal history papers authored by graduate final year JD students in the Melbourne Law School This collection is dedicated to two women who championed the teaching of legal history at the Melbourne Law School in the 1960s Dr Ruth Campbell and Mrs Betty Hayes The Dove and the Dragon Ed Simon, 2025-08-12 No Western religious concept has been as socially culturally economically and politically significant as that of the apocalypse Neither heaven and hell nor sin and salvation nor even God and the devil have merited the attention of billions of people in the manner that belief in the end of the world has Apocalyptic thinking is riven by a fruitful and at times dangerous binary between the hopes for a coming millennium when all shall be perfected or of a fiery deluge when the earth shall be destroyed The Dove and the Dragon is the first comprehensive history of Western apocalypticism Ed Simon introduces a new system for classifying movements concerned with the end of history between hopeful millennial doves and violent apocalyptic dragons This framing connects a seemingly disparate phenomenon from medieval millennialism to modern Marxism Reformation apocalypticism to contemporary techno utopianism Expected groups are considered but unexpected phenomena are interpreted through the lens of apocalypticism as well to argue that those that have often been classified as secular still take part in this ancient theological category This new way of interpreting history gives sense to the full scope of apocalypticism as a series of movements and as a genre including not just religion and theology but politics philosophy and pop culture as well The Dove and the Dragon promises to be the standard introduction for years to come

The Penguin History of Europe David Cannadine, 2001 **The Forge of Christendom** Tom Holland, 2009-05-05 A grand narrative history of the re emergence of Europe following the collapse of the Roman Empire At the approach of the first millennium the Christians of Europe did not seem likely candidates for future greatness Weak fractured and hemmed in by hostile nations they saw no future beyond the widely anticipated Second Coming of Christ But when the world did not end

the peoples of Western Europe suddenly found themselves with no choice but to begin the heroic task of building a Jerusalem on earth In *The Forge of Christendom* Tom Holland masterfully describes this remarkable new age a time of caliphs and Viking sea kings the spread of castles and the invention of knighthood It was one of the most significant departure points in history the emergence of Western Europe as a distinctive and expansionist power
