**Chrono Cross the Radical Dreamers Edition Game Guide** Rita Ken, 2022-04-17 Chrono Cross is a story about a boy named Serge Unlike other Chrono games about time travel this one is mostly about alternate dimensions One of the key story elements of Chrono Cross is traveling between two alternating dimensions Presumably these are the same worlds with the same inhabitants but because each dimension works differently things turn out differently This builds on themes of how one's past choices shape their present and how some seemingly small differences can have a huge butterfly effect Like its predecessor the present can be changed by actions taken in the past and some decisions in one dimension can be transferred to another It's an interesting idea that doesn't get explored very often and adds a welcome layer of complexity to the story Elements play an important role in Chrono Cross battle strategy Each character is assigned an innate elemental preference represented by one of six colors Each enemy also has its own innate element so creating groups and assigning elements based on elemental abilities can make a huge difference in boss fights If you're fighting a boss whose native color is blue it can be beneficial to equip lots of red items The disadvantage is that the red team members deal more damage to the blue elemental attacks In addition to balancing the elements with their opponents the elements also have base levels Attacking with stronger elements requires more manipulation to make them usable Many elements can be equipped above or below their base level enhancing or weakening them accordingly Each element can only be used once per battle Combat is a traditional turn based event common in JRPGs but with innovative twists Characters start with seven action points that can be used for multiple attacks with different hit chances and damage potential Basic attacks can charge up elemental attacks and can be used like spells Ordinary combat doesn't give experience so there's no level grinding in the traditional sense Teams earn stars after defeating bosses and the following battles will grant small stat bonuses to active characters Combat earns gold and crafting materials but the animation of everything makes combat very slow This is where options to turn off enemy encounters or speed up the game come in handy
