*Power and the Sacred in Revolutionary Russia* Glennys Young, 2010-11 After the 1917 Revolution in Russia the Bolsheviks launched a massive assault on religion. Although we know a great deal about how the Bolsheviks went about doing this propaganda persecution of clergy and laity seizing church property scholars have not devoted much attention to the other side of the story the people who were being persecuted and how they responded to their persecutors. Glennys Young shows how ordinary Russian peasants devised ways of asserting their religious faith during the difficult period of New Economic Policy 1921-28 when the Party state was ideologically obsessed with eradicating religion. Faced with persecution torture and the creation of antireligious organizations such as the League of the Godless Orthodox clergy and laity organized themselves against the Bolsheviks. They revived factional politics even using the village soviets the intended cornerstone of Soviet power in the countryside to defend their religious interests. When they achieved some degree of success in their resistance the Bolsheviks were forced to respond and adapt their strategies a conclusion that scholars have not put forward previously. Based on extensive research in archives and published sources Young's book will force historians of Soviet Russia to confront religious issues as central to rural politics. Her work also draws upon cultural anthropology and theories of peasant politics making it of great interest to any scholars studying the processes of secularization and desacralization in other cultures.

This book investigates legal disputes between religious communities in the world's largest majority Muslim democratic country Indonesia. It considers how the interaction between state and religion has influenced relations between religious communities in the transition to democracy. The book presents original case studies based on empirical field research of court disputes in West Java a majority Muslim province with a history of radical Islam. These include criminal

court cases as well as cases of judicial review relating to disputes concerning religious education permits for religious buildings and the crime of blasphemy The book argues that the democratic law reform process has been influenced by radical Islamists because of the politicization of religion under democracy and the persistence of fears of Christianization It finds that disputes have been localized through the decentralization of power and exacerbated by the central government's ambivalent attitude towards radical Islamists who disregard the rule of law Examining the challenge facing governments to accommodate minorities and manage religious pluralism the book furthers understanding of state religion relations in the Muslim world This accessible and engaging book is of interest to students and scholars of law and society in Southeast Asia as well as Islam and the state and the legal regulation of religious diversity     **Ireland** Elizabeth Bowen, Michael Ivory, 2003 Whether travelling for business or pleasure your annual holiday or just a weekend take this book along with you and discover for yourself the delights of this country Includes a principal sights map practical points and lots of suggestions an illustrated introduction to the local culture and lifestyle details of selected towns and more     **The Churchman** ,1890
