Why We Kill Karl Kemp, 2024-03-02 Why do so many South Africans prefer taking the law into their own hands to relying on the police Why are those who do so often cheered or sympathised with Of the unprecedented 27 000 recorded murders in South Africa in 2022 at least 1 894 or 7 per cent were attributed to mob justice and vigilantism more than double the number from five years before In the first nine months of 2023 a further 1 472 mob justice deaths had already been registered Mob justice is nothing new but in recent years it has taken on an undeniably desperate furious edge From the breathtakingly violent Zandspruit massacre in May 2021 to the killings during the July unrest two months later to the march of Operation Dudula across the nation in 2022 vigilantism and the condoning of it has never before captured the zeitgeist of South Africa so sharply What has changed in the past few years and what does it augur for the future Following three recent cases of mob justice from the hellish metropolitan townships of Gauteng to the far flung bushveld of northern Limpopo and drawing on extensive research and interviews *Why We Kill* explores the roots realities and consequences of South Africa's current crisis of vigilantism

Power in Close Relationships Christopher R. Agnew, Jennifer J. Harman, 2019-02-28. Power is an inherent feature of social interactions yet it is hard to define and therefore understand. This book is the first to organize current interdisciplinary theorizing and research about power from leading academics in areas such as social psychology, communications, family studies and public health. It also focuses exclusively on how power operates and affects close relationship processes while the theoretical insights provided point the way toward new lines of research and understanding. Using specific examples to illustrate complex theoretical explanations and supplying thorough descriptions of the existing literature on power in close relationships, this book is an essential resource for researchers, professionals, students or laypeople seeking to better understand how power operates in those relationships that are most important to us.

Suicide and Suicide Prevention From a Global Perspective Ella Arensman, Diego De Leo, Jane Pirkis, 2020-04-06. Suicide is one of the most personal yet one of the most complex acts anyone can perform and it continues to be a major global public health problem with an estimated 800 000 deaths annually. Suicide prevention is an important target in the United Nations Sustainable Development Goals (SDGs) for 2030 which aims to reduce premature mortality from noncommunicable diseases by one third. Suicide is a global problem but what differences are there in the challenges faced and the solutions found regionally? Written by leading experts, the nine chapters of this volume provide a clear outline of the major milestones and achievements that have been reached so far in six different geographical regions according to data collated by IASP and the WHO. Recent progress in the development and implementation of national suicide prevention programs in different countries is also explored. In two concluding chapters the evidence base and best practice of suicide prevention programs are reviewed as well as a look at the future directions for suicide prevention at the global level. This is essential reading for all those involved in suicide research and prevention as well as public health policy and epidemiology who want to keep up to date with the latest global developments.
