Back To The Dream Dreamlands 2:

Dreamland Phil Patton, 2012-10-31 There is a place in the Nevada desert the size of Belgium that doesn't officially exist. It is the airbase where test flights of our top secret experimental military aircraft are conducted and not coincidentally where the conspiracy theorists insist the Pentagon is hiding UFOs and aliens. This is Dreamland or Area 51. For Phil Patton, the idea of writing a travel account of a place he couldn't actually visit was irresistible. What he found was a world where Chick Yeager and the secret planes of the Cold War converged with the Nevada Test Site and alien landings at Roswell. A think tank for aviation engineering, Dreamland can be seen from a summit outside the base's perimeter a hundred miles north of Las Vegas. On Freedom Ridge, groups of airplane buffs gather with their camouflage outfits and binoculars. These are the Stealth chasers, the Skunkers, guys with code names like Agent X and Zero, hoping for a glimpse of the rumored raylike shapes of planes like Black Manta and the mother ship. The most mysterious craft is Aurora, the successor to the legendary U-2, said to run on methane and fly as fast as Mach 6. Scanning the same horizon, the UFO buffs are looking for the hovering lights and doughnut-shaped contrails of alien aircraft. Are they looking at something sinister and mysterious? Imagined. Or more terrestrial than they think. Dreamland shows how much we need mystery in the information age and how the cultures of nuclear power and airpower merge with the folklores of extraterrestrials and earthly conspiracies. Patton found people who found themselves in the mysteries of the place. John Lear, the son of aviation pioneer Bill Lear, who gave his name to the jet, served as a pilot for the CIA's Air America, but back home he became fascinated by UFOs and eventually believed in it all: the underground bases, the alien-human hybrids, the secret treaties. But was he a true believer or part of a disinformation campaign? Bob Lazar seems to know when the saucers will come and has made three clear sightings at night along Dreamland's perimeter, but is his story real or a vision of what's possible? Dreamland is an exploration of America's most secret place, the base for our experimental airplanes, the fount of UFO rumors, an offshoot of the Nevada Test Site. How this blackspot came to exist, its history, its creators, its spies and counterspies, is Phil Patton's tale. He tunnels into the subcultures of the conspiracy, buffs, the true believers, and the aeronautic geniuses, creating a novelistic tour de force destined to make us all rethink our convictions about American know-how and alien inventiveness.

Dreamland Carly Goodman, 2023-03-13 In a world of border walls and obstacles to migration, a lottery where winners can gain permanent residency in the United States sounds too good to be true. Just as unlikely is the idea that the United States would make such visas available to foster diversity within a country where systemic racism endures. But in 1990, the United States Diversity Visa Lottery was created to do just that. Dreamland tells the surprising story of this unlikely government program and its role in American life, as well as the global story of migration. Historian Carly Goodman takes readers from Washington, D.C., where proponents deployed a colorblind narrative about our nation of immigrants to secure visas for white immigrants to the African countries where it flourished and fostered dreams of going to America. From the post office to the internet, aspiring emigrants, visa agents, and

others embraced the lottery and tried their luck in a time of austerity and limits Rising African immigration to the United States has enriched American life created opportunities for mobility and nourished imagined possibilities But the promise of the American dream has been threatened by the United States embrace of anti immigrant policies and persistent anti Black racism
