Bachelor Degree Template:

Fake Degrees and Fraudulent Credentials in Higher Education Sarah Elaine Eaton, Jamie J. Carmichael, Helen Pethrick, 2023-01-10 This book addresses an important topic in higher education credential fraud This includes but is not limited to fake degrees diploma mills admissions fraud and cheating on standardized admissions tests The book directly addresses fake and fraudulent credentials in higher education It explores transcript tampering and fraud in varsity athletics and discusses lazy practices in the higher education hiring processes that open the door for professors without proper credentials to get jobs in post secondary institutions The book also discusses how technology is being used to stop the proliferation of fake and fraudulent credentials in a variety of ways including blockchain technology Developing a Keyword Extractor and Document Classifier: Emerging Research and Opportunities Paul, Dimple Valayil, 2021-01-08 The main problems that prevent fast and high quality document processing in electronic document management systems are insufficient and unstructured information information redundancy and the presence of large amounts of undesirable user information The human factor has a significant impact on the efficiency of document search An average user is not aware of the advanced option of a query language and uses typical queries Development of a specialized software toolkit intended for information systems and electronic document management systems can be an effective solution of the tasks listed above Such toolkits should be based on the means and methods of automatic keyword extraction and text classification The categorization or classification of texts into predefined categories has witnessed a booming interest in the last 10 years due to the increased availability of documents in digital form and the ensuing need to organize them Thus research on keyword extraction advancements in the field and possible future solutions is of great importance in current times Developing a Keyword Extractor and Document Classifier Emerging Research and Opportunities presents an information extraction mechanism that can process many kinds of inputs realize the type of text and understand the percentage of the keywords that has to be stored This mechanism then supports information extraction and information categorization mechanisms This module is used to support a text summarization mechanism which leads with the help of the keyword extraction module to text categorization It employs lexical and information retrieval techniques to extract phrases from the document text that are likely to characterize it and determines the category of the retrieved text to present a summary to the users This book is ideal for practitioners stakeholders researchers academicians and students who are interested in the development of a new keyword extractor and document classifier method *A Template Approach to Natural Language Analysis for Information Retrieval* Stephen Fredrick Weiss, 1970 Calendar London School of Economics and Political Science, 1928 The New England Medical Gazette , 1909 University Senate Minutes, Twin Cities Campus Assembly Minutes, Faculty Senate Minutes, Student Senate Minutes University of Minnesota. Senate, 2011 **Reports of the Board of Managers, President of the College, Treasurer of the Corporation** Haverford College, 1882 **Reports of the Board of Managers,**

President of the College, Treasurer of the College Haverford College,1877 *Massive Open Online Courses and Higher Education* Rebecca Bennett, Mike Kent, 2017-04-21 Since the first MOOC was launched at the University of Manitoba in 2008 this new form of the massification of higher education has been a rollercoaster ride for the university sector The New York Times famously declared 2012 to be the year of the MOOC However by 2014 the number of academic leaders who believed the model was unsustainable doubled to more than 50% While the MOOC hype has somewhat subsided the attitudes and anxieties of this peak time can still be seen influencing universities and their administrations This is the first volume that addresses Massive Open Online Courses from a post MOOC perspective We move beyond the initial hype and revolutionary promises of the peak MOOC period and take a sober look at what endures in an area that is still rapidly growing albeit without the headlines This book explores the future of the MOOC in higher education by examining what went right what went wrong and where to next for the massification of higher education and online learning and teaching The chapters in this collection address these questions from a wide variety of different backgrounds methodologies and regional perspectives They explore learner experiences the move towards course for credit innovative design transformations and implications of the MOOC in turn This book is valuable reading for students and academics interested in education eLearning globalisation and information services
