

11 TIPS TO FIND WORK / LIFE BALANCE

If you do what you love, you'll love what you do right? But that doesn't have to mean being connected 24-7-365. Productivity and creativity increases after rest and time off. A walk outdoors, a night with family or a long weekend road trip can help refocus, clear your mind and recharge your energy. Here's a few steps to find your work/life balance.

1. CREATE ROUTINE

Whether its meditation, breathing exercises, or jamming out to your favorite music find a transition time practice that helps you mentally switch gears into your evening.

2. ESTABLISH A PRACTICE

Whether its meditation, breathing exercises, or jamming out to your favorite music find a transition time practice that helps you mentally switch gears into your evening.

03. TURN OFF

Being able to unplug and recharge means turning off notifications, putting devices down and enjoying the calm or craziness your night likely includes.

4. CHANGE CLOTHES

Some people recommend changing clothes after work to "evening attire" that helps you relax and switch gears. Your yoga pants are calling!

5. HAVE A DANCE PARTY

We love seeing photos of parents after work dancing around the living room with their kids. Pick a song, crank it up around your house and get the whole family to join in before you settle in for the evening.

6. SET AN INTENTION

Each evening find a focal point or intention you want to accomplish that night. Choose a word or phrase you can focus on that will drive your evening activities.

7. WORKOUT

There is no arguing that a killer workout makes you feel better. Whether it's running, hitting the gym or your favorite yoga practice, centering yourself through a workout is a great transition activity.

8. UNPLUG

Don't take your devices to bed. Being unplugged means getting the sleep you need and not taking work to bed with you either.

9. BE ACCOUNTABLE

Telling your spouse or a close friend about your intentions to create a better work life balance can help you stay accountable to your goals.

10. DRINK WINE

It doesn't have to be wine, but enjoy a nice beverage and meal to help bring closure to the day.

11. FIND TIME

You might just realize that evenings will never allow for personal time, so look for other pockets of the day. Ten minutes in the morning in a silent house with a cup of coffee can change the outlook of an entire day.

Some days we feel balanced, and others out of control. If you find work you are passionate about it's likely to spill over into your personal time because you'll choose activities that align your personal and professional interests. Keep checking in with yourself, your family and your team at work about ways to continually grow and improve your life balance.

The Art of Success - Mastering the Game of Life , Celebrating Milestones Recognizing Achievements In the journey toward mastering the art of success acknowledging and celebrating milestones is a vital aspect of sustaining motivation and reinforcing progress Celebrating achievements whether big or small provides a sense of accomplishment and a reminder of how far you ve come This chapter explores the significance of recognizing milestones and offers strategies for celebrating achievements in a way that enhances your journey toward success Milestones are pivotal points that mark progress along your path to achieving your goals They represent significant achievements or progress in your journey providing tangible markers of your efforts and determination Recognizing these milestones is essential not only for validating your hard work but also for maintaining momentum and fostering a positive outlook One of the primary benefits of celebrating milestones is the boost in motivation and morale When you take the time to acknowledge your achievements you reinforce the connection between effort and success This positive reinforcement can energize you to continue pursuing your goals with renewed enthusiasm For instance successfully completing a major project or reaching a key target might inspire you to tackle the next challenge with greater confidence and drive Celebrating milestones also provides an opportunity for reflection and self recognition Taking a moment to appreciate your progress

allows you to evaluate what you've learned, how you've grown, and the obstacles you've overcome. This reflection helps reinforce your sense of accomplishment and provides valuable insights into your journey. For example, reviewing the steps you took to achieve a significant milestone can highlight strategies and practices that contributed to your success, which can be applied to future endeavors. There are various ways to celebrate milestones, and the approach you choose can reflect your personality, preferences, and the nature of the achievement. Celebrations can range from personal rewards, such as treating yourself to a special experience or indulging in a favorite activity, to more public acknowledgments, such as sharing your success with friends, family, or colleagues. For example, after completing a challenging work project, you might host a small gathering to celebrate with your team, express gratitude, and share the success. Public recognition can also play a significant role in celebrating milestones. Sharing your achievements with a broader audience can enhance your sense of accomplishment and provide external validation. This recognition can come in the form of awards, acknowledgments in professional or social circles, or public announcements of your achievements. For instance, receiving an industry award or being featured in a publication can reinforce your success and enhance your professional reputation. Incorporating rituals or traditions into your celebrations can add meaning and significance to the process. Rituals, whether personal or shared with others, create a sense of continuity and tradition, reinforcing the importance of your achievements. For example, you might establish a personal tradition of reflecting on your goals and progress at the end of each year, setting aside time to celebrate your accomplishments and plan for future objectives. It's important to strike a balance between celebrating milestones and maintaining focus on your overarching goals. While recognizing achievements is crucial, it's equally important to stay committed to your long-term objectives and avoid becoming complacent. Celebrations should serve as a source of motivation and inspiration, propelling you forward rather than causing you to lose sight of your ultimate aspirations. For instance, after celebrating a major milestone, use the momentum to set new goals and continue working toward your next achievement. Moreover, celebrating milestones provides an opportunity to express gratitude to those who have supported you along the way. Acknowledging the contributions of mentors, colleagues, friends, and family members who have played a role in your success fosters positive relationships and reinforces the collaborative nature of achievement. Taking the time to thank and recognize those who have helped you can strengthen your network and create a supportive environment for future endeavors. In summary, celebrating milestones and recognizing achievements are essential components of mastering the art of success. By acknowledging your progress, reflecting on your journey, and finding meaningful ways to celebrate, you reinforce your motivation and sustain a positive outlook. Embrace the process of celebrating your milestones and let it energize you as you continue to pursue your goals and strive for success.

related with the geographic dispersion of the workforce's position. Several experts assert that adopting telework is directed by other factors and that are not necessarily technological. While other experts like O'Mahony and Barley (1999) suggest that when analyzing telework, cultural, social, and even political actors should not be ignored, Hartig (2007) established that worker independence was more crucial compared to technological factor to successfully implement telework. This research paper seeks to find study teleworking and its effectiveness on Work Life Balance among employees in an organization. The research paper will review past studies carried out on this subject in order to answer the subject. A number of recent tendencies in the recent past have focused extra attention on teleworking. One, there is an increasing trend of achieving an improved work life balance from teleworking, e.g., Hartig (2007), Golden et al. (2006) general the possibility of achieving improved work life balance in all regions may not be realized soon. Hartig (2007) Two, there is growing evidence that offering telework results in improved performance of the organization and the teleworker and it also reduces cases of absenteeism. Stavrou (2005) At the same time is possible that teleworking could help in countries with labor shortage by enabling more women who have younger children to get back to the labor market and be employed as teleworker.
