**Communication that Counts** Pia Patricia P. Tenedero, 2022-11-29 To date communication research in accounting has largely focused on the competencies that define what constitutes effective communication Highly perception based skills focused and Global North centric existing research tends to echo the skills deficit discourse which overemphasizes the role of

the higher education system in developing students work relevant communication skills This book investigates dominant views about communication and interrogates what shapes these views in the accounting field from a Global South perspective exploring the idea of good communication in the globalized accounting field Taking the occupational stereotype of shy employees who are good with numbers but bad with words as its starting point this book examines language and communication practices and ideologies in accounting education and work in the Philippines As an emerging global leader in offshore accounting the Philippines is an ideal context for an exploration of multilingual multimodal and transnational workplace communication
