Rethinking Social Studies E. Wayne Ross, 2017-03-01 Like the schools in which it is taught social studies is full of alluring contradictions It harbors possibilities for inquiry and social criticism liberation and emancipation Social studies could be a site that enables young people to analyze and understand social issues in a holistic way finding and tracing relations and interconnections both present and past in an effort to build meaningful understandings of a problem its context and history to envision a future where specific social problems are resolved and take action to bring that vision in to existence Social studies could be a place where students learn to speak for themselves in order to achieve or at least strive toward an equal degree of participation and better future Social studies could be like this but it is not Rethinking Social Studies examines why social studies has been and continues to be profoundly conversing in nature the engine room of illusion factories whose primary aim is reproduction of the existing social order where the ruling ideas exist to be memorized regurgitated internalized and lived by Rethinking social studies as a site where students can develop personally meaningful understandings of the world and recognize they have agency to act on the world and make change rests on the premises that social studies should not show life to students but bringing them to life and that the aim of social studies is getting students to speak for themselves to understand people make their own history even if they make it in already existing circumstances These principles are the foundation for a new social studies one that is not driven by standardized curriculum or examinations but by the perceived needs interests desires of students communities of shared interest and ourselves as educators Rethinking Social Studies challenges readers to reconsider conventional thought and practices that sustain the status quo in classrooms schools and society by critically engaging with questions and issues such as neutrality in the classroom how movement conservatism shapes the social studies curriculum how corporate driven education affects schools teachers and curriculum ways in which teachers can creatively disrupt everyday life in the social studies classroom going beyond language and inclusive content in social justice oriented teaching making critical pedagogy relevant to everyday life and classroom practice the invisibility of class in the social studies curriculum and how to make it a central organizing concept class war class consciousness and social studies in the age of empire what are your ideals as a social studies education and how do you keep them and still teach and what it means to be a critical social studies educator beyond the classroom

The Participator in Contemporary Art Kaija Kaitavuori, 2018-08-30 The early 21st century has seen contemporary art make continued use of audience participation in which the spectator becomes part of the artwork itself In this book Kaija Kaitavuori claims that the participator is a new artistic role that does not fall under the auspices of artist or

spectator and in proving such she devises a four group typology of involvement Her classification distinguishes between different forms of engagement and identifies their specific features The key criteria she proposes are how concepts of authorship and ownership shift in relation to collectively created work how contracts regulating the use and production of shared work are arranged and the extent to which involvement in making art can be regarded as democratic This highly original book thus offers students and teachers the tools with which to improve their understanding of participatory art and removes the confusing terminology that has characterized so many other discussions The Philosopher's Apprentice James Morrow,2009-10-13 A brilliant philosopher with a talent for self destruction Mason Ambrose has torpedoed a promising academic career and now faces a dead end future Before joining the ranks of the unemployed however he is approached by a representative of billionaire geneticist Dr Edwina Sabacanthani who makes him an offer no starving ethicist could refuse Born and bred on Isla de Sangre a private island off the Florida coast Edwina's beautiful and intelligent adolescent daughter Londa has recently survived a freak accident that destroyed both her memory and her sense of right and wrong Londa's soul in short is an empty vessel and it will be Mason's job to fill it Exploring his new surroundings our hero encounters a lush Eden abounding in bizarre animals and strange vegetation engineered by Edwina and her misanthropic collaborator Dr Vincent Charnock And Londa though totally lacking a conscience proves a vivacious young woman who quickly captivates her new teacher as he attempts to recalibrate her moral compass with the help of Western civilization's greatest ethical thinkers living and dead But there's trouble in this tropical paradise Mason soon learns that he isn't the only private tutor on Isla de Sangre nor is Londa the only child in residence whose conscience is a blank slate How many daughters does Edwina Sabacanthani really have and how did she bring them into being Undaunted by these mysteries Mason continues to instruct Londa hoping that she can lead a normal life when she eventually ventures forth into human society His apprentice however has a different agenda Her head crammed with lofty ideals her heart brimming with fearsome benevolence and her bank account filled to bursting Londa undertakes to remake our fallen world in her own image by any and all means necessary

establishing a clear difference between mainstream media and alternative media has grown even more difficult within the past twenty years. With the emergence of such efforts as open publishing, web logging and video logging, video posting, websites, citizen journalism, creative commons initiatives and image focused anti corporate activism, it has become increasingly difficult to navigate within this emerging media landscape. The traditional lines between mainstream and alternative and between producers and consumers have been blurred. This growing inability to adequately map this landscape demands that these lines be reconsidered. New ways must be formed for probing implications of these new media outlets for democratization and global justice movements. This book reconstitutes the cultural and historical roots of this protean media landscape and assesses its relevance to democratic communications. Using a comprehensively argued cultural and historical analysis, the book rethinks long standing assumptions about alternative media and democratic communications. By providing greater understanding of historical resources, limitations and possibilities, this book makes a key contribution not only to scholarship in this area but also to this pressing social, political and cultural issue.

The Uncertain States of America Reader Noah Horowitz, Brian Sholis, 2006-04-07

This is undoubtedly a moment marked by a serious interest in the actions America is taking on the world stage, actions that have been described as a cause for grave concern. We do not attempt to authoritatively engage these concerns here nor do we wish to insinuate that elevated interest in America's cultural affairs is somehow unique to our present historical moment. We do, however, think that this sampling of discourse by and about a country's visual artists leads to insights about its politics and society not gained elsewhere. At the very least, it gives a sense of what it is like to live in the United States today and results in some inspired debate. We hope that this book serves not only as a valuable compendium of recent writing about contemporary art but also as inspiration to seek further understanding of these Uncertain States.

So Noah Horowitz and Brian Sholis note in the introduction to this unique compilation of writing around art and cultural politics in America since 2000. Published in collaboration with the Serpentine Gallery, London and the Astrup Fearnley Museum of Modern Art, Oslo, as an addendum to the traveling exhibition *Uncertain States of America* curated by Daniel Birnbaum, Gunnar Kvaran and Hans Ulrich Obrist, the USA Reader was designed by Dexter Sinister. It is a thought provoking collection that will become an important sourcebook on American culture at the start of the new millennium.
