Crimes Et Criminels:

Crime et criminel Francisco Ferraz de Macedo,1892 Le crime et la peine Proal,1892 **Abnormal Man, Being Essays on Education and Crime and Related Subjects** Arthur MacDonald,1893 Crime, Histoire et Sociétés, 2005/2 International Association for the History of Crime and Criminal Justice, Le crime et la peine Louis Proal,1892

Abnormal Man Arthur MacDonald,1893 *A History of Law in Canada, Volume One* Philip Girard,Jim Phillips,R. Blake Brown,2018-12-21 A History of Law in Canada is an important three volume project Volume One begins at a time just prior to European contact and continues to the 1860s Volume Two covers the half century after Confederation and Volume Three covers the period from the beginning of the First World War to 1982 with a postscript taking the account to approximately 2000 The history of law includes substantive law legal institutions legal actors and legal culture The authors assume that since 1500 there have been three legal systems in Canada the Indigenous the French and the English At all times these systems have co existed and interacted with the relative power and influence of each being more or less dominant in different periods The history of law cannot be treated in isolation and this book examines law as a dynamic process shaped by and affecting other histories over the long term The law guided and was guided by economic developments was influenced and moulded by the nature and trajectory of political ideas and institutions and variously exacerbated or mediated intercultural exchange and conflict These themes are apparent in this examination and through most areas of law including land settlement and tenure and family commercial constitutional and criminal law **Second Catalogue of the Library of the Peabody Institute of the City of Baltimore, Including the Additions Made Since 1882** Johns Hopkins University. Peabody Institute. Library,George Peabody Library,1897 *Psychiatrische en Neurologische Bladen* ,1901 **Aggressive War** Cornelis Arnold Pompe,2012-12-06 Six years after the rendering of the Nuremberg Judgment world conditions are not such as to encourage a study on what constituted its principal innovation in the legal field the punishment of the authors of aggressive war The war alliance against the Axis Powers which was the political basis of the Nuremberg Trial and of the United Nation Organisation has broken up Mutual fear threats and accusations and a gigantic armament race are the dominating factors in international life during the cold war period and the minds of statesmen military men and lawyers alike are more preoccupied with the problem of how to win a possible third world war than with that of preventing its occurrence and avoiding responsibility for its outbreak While the survival of their freedom and civilization is at stake the nations seem more intent on preparing for what is vaguely and equivocally called self defence than on accepting and assuring the reign of law The strain of the protracted struggle in Korea moreover seems to turn the first experiment with military sanctions against an aggressor into a classic game of power politics It is not surprising that in such circumstances little energy is displayed in efforts to implement the principles to which the United Nations pledged themselves in Nuremberg and that many statesmen and lawyers seem prepared to abandon at least for the near future the precedent of the time of alliance

expression of confidence in the victory of law over force

1882 Baltimore Peabody inst, libr,1896 Canada the Good Marcel Martel,2014-03-27 To invest in vice can be a sound financial decision but despite the lure of healthy profits individuals and mutual funds have been reluctant to invest in this type of stock After all who would take pride in supporting the tobacco industry knowing it sells a deadly product And what social responsibilities do investors bear with respect to compulsive gamblers who have lost so much money that suicide becomes an attractive option Canada the Good considers more than five hundred years of debates and regulation that have conditioned Canadians attitudes towards certain vices Early European settlers implemented a Christian moral order that regulated sexual behaviour gambling and drinking Later some transgressions were diagnosed as health issues that required treatment Those who refused the label of illness argued that behaviours formerly deemed as vices were within the range of normal human behaviour This historical synthesis demonstrates how moral regulation has changed over time how it has shaped Canadians lives why some debates have almost disappeared and others persist and why some individuals and groups have felt empowered to tackle collective social issues Against the background of the evolution of the state the enlargement of the body politic and mounting forays into court activism the author illustrates the complexity over time of various forms of social regulation and the control of vice

Crime History and Histories of Crime Clive Emsley,1996 When is a crime a crime or an act condoned by a significant portion of society When is a criminal a criminal or a revolutionary or a national hero As the chapters in this collection make clear what constitutes criminal activity varies to a degree among different societies and at different moments in a society s history In this wide ranging work major historians of criminology and penology examine aspects of crime and criminal justice from medieval Western Europe to modern day Canada In addition to examining crime the judicial system and punishment in various societies the chapters look at the evolution of police systems as societies urbanize and undergo population changes Together these chapters look at many key questions concerning the modern study of criminal behavior As such the volume will be of great interest to researchers and scholars of the history of crime

The Royal Financial Administration and the Prosecution of Crime in France, 1670-1789 Albert N. Hamscher,2012-07-13 The Royal Financial Administration and the Prosecution of Crime in France 1670 1789 explores the French monarchy s role in financing criminal prosecutions in the royal courts of the realm the payment of criminal frais de justice in the vocabulary of the ancien r gime between 1670 and 1789 that is from the codification of criminal judicial procedure in the early period of Louis XIV s personal rule to the outbreak of the French Revolution The subject brings together three areas of scholarly inquiry criminal justice royal administration and the management of the crown s finances A central goal of the study is to provide factual information and interpretive insights on each of these topics and to explain the relationship of each to the others over a long time period The book contributes to existing scholarship in

four ways First although each of the major dimensions of the inquiry the operation of the criminal justice system the conduct of the royal administration and the management of the monarchy s finances has a large and increasingly sophisticated historical literature this is the first study to combine them in a systematic way Second the long time period covered in the book not only enables the historian to distinguish gradual from rapid change but it also allows the reader to view how the system functioned in different historical contexts Third the study is based on archival sources throughout France This comprehensive approach permits the identification of elements of a common experience without sacrificing attention to important aspects of regional diversity Finally with respect to the sources themselves the range is broad encompassing regulatory acts and decisions of the king s councils administrative correspondence at the central regional and in some cases local levels financial accounts and related papers and court records from the major appellate courts and from several lower courts as well An appendix of 33 tables lists figures of annual expenditure and other pertinent financial operations for each of the major financial districts of the kingdom
