Abstract

The long-running financial crisis in Sri Lanka has put the country's government to its most significant test and caused great hardship for its citizens. Lanka is experiencing an economic and political emergency, with high expansion and erratic showings across the nation. The Sri Lankan government requires its citizens living abroad to send money home. Due to Sri Lanka's \$51 billion in external obligations, 13 Lankan banks have been placed on rating watch negative. On the island paradise, inconvenience is in the making. There isn't any food available. Over the past few months, approximately 500,000 more Sri Lankans have become dependent. Basic medical procedures, prescriptions, and fuel are being discontinued. According to experts, the financial crisis may be more to blame for the deaths in Sri Lanka than the coronavirus. There are frequent blackouts and violent street brawls. The lack of force and the inability to obtain safe drinking water has made it extremely difficult to organize crisis healthcare services. There has been an intrusion into the security net projects. The situation in Sri Lanka is much more complicated than just a money crisis. There is a charitable emergency here. How could it have happened, and how did the public authority of Sri Lanka lose its money? are the only questions being asked. This exam paper's purpose is to provide answers to these questions. Additionally, the paper's author frames a thorough investigation of the problem and the causes of the financial emergency.

1. INTRODUCTION

The neighborhood parts of India are facing clutter. Pakistan is suffering from a political crisis in the west, Nepal is suffering a financial crisis in the north, and Sri Lanka is suffering from an economic crisis south of India. Located on the end of the Indian subcontinent, Sri Lanka is suffering an illness; an acute and likely the worst financial problem compounded by the COVID-19 pandemic. The Sri Lankan government's mismanagement of funds speed-up the economic crisis in the country. Sri Lanka relies heavily on tourism and the export of some commodities for foreign exchange reserves to meet their import expenditure. Sri Lanka's economy depended on tourism due to Easter bomb blasts in churches in Colombo in April 2019, and COVID-19 lockdowns resulted in the number of tourists leading financial crisis. They could not import necessities such as food and fuels, and inflation was surmounted. The Sri Lankan government announced massive tax cuts to reduce the income of Sri Lanka, like banning chemical fertilizers from promoting organic

Global Financial Stability Report, October 2014 International Monetary Fund. Monetary and Capital Markets Department, 2014-10-08 The October 2014 issue finds that six years after the start of the crisis the global economic recovery continues to rely heavily on accommodative monetary policies in advanced economies Monetary accommodation remains critical in supporting economies by encouraging economic risk taking in the form of increased real spending by households and greater willingness to invest and hire by businesses However prolonged monetary ease may also encourage excessive financial risk taking Analytical chapters examine 1 the growth of shadow banking around the globe assessing risks and discussing regulatory responses and calling for a more encompassing macroprudential approach to regulation and for enhanced data provision and 2 how conflicts of interest among bank managers shareholders and debt holders can lead to excessive bank risk taking from society's point of view finding no clear relation between bank risk and the level of executive compensation but that a better alignment of bankers pay with long term outcomes is associated with less risk

The Left Case Against the EU Costas Lapavistas, 2018-12-05 Many on the Left see the European Union as a fundamentally benign project with the potential to underpin ever greater cooperation and progress If it has drifted rightward the answer is to fight for reform from within In this iconoclastic polemic economist Costas Lapavistas demolishes this view He contends that the EU's response to the Eurozone crisis represents the ultimate transformation of the union into a neoliberal citadel that institutionally embeds austerity privatization and wage cuts Concurrently the rise of German hegemony has divided the EU into an unstable core and dependent peripheries These related developments make the EU impervious to meaningful reform The solution is therefore a direct challenge to the EU project that stresses popular and national sovereignty as preconditions for true internationalist socialism Lapavistas's powerful manifesto for a left

opposition to the EU upends the wishful thinking that often characterizes the debate and will be a challenging read for all on the Left interested in the future of Europe
