The Future of the Commercial Contract in Scholarship and Law Reform Maren Heidemann, Joseph Lee, 2018-11-02. This book explores commercial contract law in scholarship and legal practice, suggests new research agendas, and provides a forum for debate of typical issues that might benefit from further attention by scholarship and legislatures. The authors, from over ten different jurisdictions, take an international and comparative approach. Not confined to EU law, it re-opens the debate internationally and seeks to reclaim the wider meaning of European law as rooted in geography and cultural legal heritage. There is a need to focus on commercial contracts in more detail in research and legislation. The transactional approach, the role of recent law reform including the new French Civil Code, cross-border dealings, substantive contract law in public international law and ICSID arbitration, as well as current contractual practices like OEM, CSR, contractual co-operation, sustainability, and intra-corporate arbitration, contribute to a wider regulatory outlook for commercial transactions.
