The Cisco Telephone System-

The Cisco Unified Communications System is widely known in the Information Technology (IT) industry as a Voice-over-IP (VoIP) Telephone System. Combined with the Cisco Unity Voice Mail System it provides a seamless integration into ISU's computer network. In other words, our voice and data communications networks are converged. This is also true of the University's video distance learning network: voice, video and data are all transported over the IP network making our network a truly converged network.

To request installation, repair or service to a Cisco Telephone and/or Cisco Unity Voice Mail, call the NetCom Business Office at extension 4541 or enter an on-line Work Order at http://www.isu.edu/netcl/workorder.html
